PHT is designed to be an informational reporting tool for either a 1 year or 5 year inquiry request for an active processing year. When a 1 Year inquiry request is submitted, the requestor will receive **only** the previous year's data information. When a 5 Year request is submitted, the requestor will receive the previous 5 years, providing data is available. The layout of Record 81 with its respective record types will not always be in the same order/sequence as the records submitted for editing. The procedure is NOT designed to provide a specific year upon request.

Information retrieved from a PHT request – submitted with the type 10/14 record – is based ONLY on the primary insurer's SSN taken from the type 10 record. Limited information is provided on SBI's, affiliated with the primary insurer, not to include crop or cross-reference data.

PHT has been revised to provide a consolidated record layout descriptor for a single or five (5) year report. Under the 'Field Edit' column will indicate which year that field was active. A duplicate field number with an asterisk(*) beside it will indicate that 'field position' would have had a different field name for the year indicated with the exception of the Type 15 record which reference the 'field number'. PHTS now reflects Reinsurance Year 2011 record layouts first for the record types and Reinsurance Years 2010 – 2007 following.
