## 2005 COMMODITY INSURANCE FACT SHEET

# Peaches

## Connecticut

### Crop Insured

Peaches (including nectarines) may be insurable if they are grown within the county:

- For the production of fresh or processing peaches
- From tree varieties having a chilling hour requirement appropriate for the area
- From a root stock adapted to the area
- In an orchard that is considered acceptable if inspected
- On trees that have reached at least the **fourth** growing season after being set out.

**Note:** If the trees have not reached the fourth year, the acreage **may** still be insurable by written agreement provided the trees have produced at least 100 bushels per acre.

### Counties Available

Peaches are insurable in Litchfield and Middlesex counties. Peaches in other counties may be insurable by written agreement if specific criteria are met. Contact an agent for more details.

### Causes of Loss

Adverse weather conditions<sup>1</sup>  
Failure of irrigation water supply<sup>2</sup>  
Fire<sup>3</sup>  
Insects<sup>4</sup>  
Plant disease<sup>4</sup>  
Insufficient number of chilling hours<sup>5</sup>  
Wildlife<sup>6</sup>

<sup>1</sup>Natural perils such as hail, frost, freeze, wind, drought, and excess moisture. <sup>2</sup>If caused by an insured peril during the insurance period. <sup>3</sup>Unless weeds and undergrowth are not controlled or unmulched pruning debris is not removed. <sup>4</sup>But not damage due to insufficient or improper application of control measures. <sup>5</sup>To effectively break dormancy. <sup>6</sup>Unless wildlife control measures have not been taken.

Note: This policy does not cover damage or loss of production resulting from **split pits** (regardless of cause) or **inability to market** the peaches for any reason other than actual damage from an insurable cause (for example, events such as quarantine, boycott, or refusal to accept production are not covered).

### Insurance Period

Coverage begins on November 21 for the first year of insurance and on October 1 in subsequent years. Coverage ends the earliest of: (1) total destruction of the crop, (2) harvest of the crop, (3) final adjustment of a claim, (4) abandonment of the crop, or (5) the following September 30.

### Reporting Requirements

You must give at least 15 days notice before any production is sold by direct marketing (unless records verify weighing/grading through a packing shed) so that an appraisal can be made.

**Acreage Report**—An acreage report is due to your agent by the date shown below to include all acreage (insurable and uninsurable) in which you have a share.

**Notice of Claim**—Required if:

- Crop damage occurs. You must give notice within 72 hours of initial discovery of damage.
- You intend to claim an indemnity. You must give notice at least 15 days prior to the beginning of harvest so that damage production may be inspected.
- Crop will not be harvested. You must give notice within 3 days of the date harvest should have started.

**Production Report**—Required by the date shown under Important Dates and must include the following information:

- Production report for the previous year;
- Tree information such as numbers, ages, varieties;
- Any changes that may adversely impact yield potential (for example, tree removal or change in cultural practices);
- Other information as required by the policy.

## Important Dates

Sales Closing ..... November 20, 2005  
 Production Report Date..... January 4, 2005  
 Acreage Report Due Date..... January 31, 2005  
 Premium Billing ..... September 15, 2005

## Definitions

**Bushel**—Fifty pounds of peaches (ungraded)

**Production Guarantee**—Number of bushels guaranteed determined by multiplying your average yield (based on your records) times the coverage level percentage you elect.

**Price Election**—An established price used to calculate your premium or indemnity:

## Coverage Levels and Premium Subsidies

Coverage level options range from 50 to 75 percent of your average yield and are subsidized as shown in the table. As an example, an average yield of 250 bushels per acre results in a guarantee of 125 bushels per acre at the 50-percent coverage level.

Item	Percent					
Coverage Level	50	55	60	65	70	75
Premium Subsidy	67	64	64	59	59	55
Your Premium Share	33	36	36	41	41	45

Catastrophic (CAT) coverage is fixed at 50 percent of average yield and 55 percent of the price election. CAT is 100-percent subsidized with no premium cost to you except for an administrative fee of \$100, regardless of the acreage.

## Price Elections

Fresh	<b>\$28.00</b>
Processing	<b>\$3.00</b>

Price elections will be posted on the RMA website at:

<http://www3.rma.usda.gov/apps/pricesinquiry/>

## Loss Example

This example is based on 50-percent coverage level, fresh price election, and average yield of 250 bushels per acre.

250	Bushels per acre average yield
x .50	Coverage level percentage
125	Bushels per acre guarantee
- 25	Bushels per acre production
100	Bushels per acre loss
x \$28	Price election (fresh)
\$2800	Indemnity per acre
- \$115	Estimated producer premium
<b>\$2,685</b>	<b>Net indemnity per acre</b>
