INFORMATIONAL MEMORANDUM: PM-10-013

TO: All Approved Insurance Providers
All Risk Management Agency Field Offices
All Other Interested Parties

FROM: Tim B. Witt /s/ Tim B. Witt
Deputy Administrator

SUBJECT: 2009 Crop Year Group Risk Plan Payment Yields for Wheat; 2009 Crop Year Group Risk Income Protection Plan Final County Yields and County Revenues for Wheat

In accordance with Section 3 of the Group Risk Plan (GRP) Crop Provisions, payment yields have been approved for Group Risk Plan Wheat for the 2009 crop year. These payment yields have been incorporated into the Actuarial Data Master and will be available by close of business today on the Risk Management Agency website at: www.rma.usda.gov/data/grpfinal/.

In accordance with Section 3 of the Group Risk Income Protection (GRIP) Plan Crop Provisions, final county yields and county revenues have been approved for Group Risk Income Protection Plan Wheat for the 2009 crop year. These final county yields and county revenues have been incorporated into the Actuarial Data Master and will be available by close of business today on the Risk Management Agency website at: www.rma.usda.gov/data/gripfinal/.

In some situations, the National Agricultural Statistics Service (NASS) has been unable to provide a county estimate for the basis of the GRP or GRIP offer available in that specific county. Current GRP and GRIP policy provisions state that payment yields and final county yields will be determined by RMA based on NASS county estimates. In these situations, RMA has utilized either the combined county estimate or, if that does not exist, the combined district estimate provided by NASS as the basis for determining the payment yield or final county yield. The attached list notes which counties with policies this process affected, as well as the NASS estimates used as a basis for the payment yields and final county yields.

DISPOSAL DATE

This Informational Memorandum is for the purpose of transmitting information and the expiration date is December 31, 2010
