SUBJECT: Corrected - 2009 Crop Year Group Risk Plan Payment Yields for
Forage Production

BACKGROUND

On May 3, 2010, PM-10-019 was issued releasing the approved Group Risk Plan Payment Yields for Forage Production. Subsequent to that release and after further review and analysis of available data, the National Agricultural Statistics Service (NASS) has provided the Risk Management Agency a correction to the county estimates used to determine payment yields in select Wisconsin counties. This results in a reduced payment yield for Burnett County.

ACTION

The Group Risk Plan Payment Yield for Forage Production in Burnett County, Wisconsin has been corrected, resulting in changes to the calculated payment factors used for determining indemnities. This payment yield has been incorporated into the Actuarial Data Master and will be available by close of business today on the Risk Management Agency website at: www.rma.usda.gov/data/grpfinal/
