SUBJECT: 2009 Crop Year Group Risk Plan Payment Yields for Forage Production

In accordance with Section 3 of the Group Risk Plan (GRP) Crop Provisions, payment yields have been approved for Group Risk Plan Forage Production for the 2009 crop year. These payment yields have been incorporated into the Actuarial Data Master and will be available by close of business today on the Risk Management Agency (RMA) website at: [www.rma.usda.gov/data/grpfinal/](http://www.rma.usda.gov/data/grpfinal/).

GRP and GRIP policy provisions state that payment yields and final county yields will be determined by RMA based on NASS county estimates. In some situations, NASS has been unable to provide a county estimate for the basis of the GRP or GRIP offer available in that county. In these situations, RMA has determined payment yields based on NASS estimates for combined counties or combined districts. The attached list notes which counties with policies are impacted as well as the NASS estimates used as a basis for the payment yields and final county yields.
