

Davis Regional Office - Davis, CA

Revised March 2014

Pistachio Pilot

California

Crop Insured

All pistachios are insurable in a county that are grown on trees, which have reached the tenth growing season after being set out with at least four years of production records.

Counties Available

Pistachios are insurable in Alameda, Butte, Colusa, Contra Costa, Fresno, Glenn, Kern, Kings, Madera, Merced, Riverside, San Bernardino, San Joaquin, San Luis Obispo, Santa Barbara, Stanislaus, Sutter, Tehama, Tulare, Yolo, and Yuba counties.

Causes of Loss

You are protected against the following:

- Adverse weather conditions;
- Earthquake;
- Failure of irrigation water supply, if caused by an insured peril during the insurance year;
- Fire;
- Insects or plant disease, but not damage due to insufficient or improper application of control measures;
- Volcanic eruption; or
- Wildlife.

Insurance Period

Coverage is sold in two-year modules; you must remain in the program for at least two consecutive years. Producers must apply for coverage with a crop insurance agent before December 31 to insure the crop they plan to harvest in that year and the following year.

Important Dates

Sales Closing/Cancellation.....December 31, 2013
Acreage/Production Reporting.....March 15, 2014
Premium Billing.....August 15, 2014
Termination.....December 31, 2014

Price Election

The price used to calculate your premium and indemnity.

Pistachios **\$2.25 per pound**

Coverage Levels and Premium Subsidies

The amount of insurance (guarantee) is determined from your production records. The coverage level and price election remain the same for each year in the two-year coverage period. Indemnity payments are calculated for each year individually. Approved yields are based on 4-10 years of production records and may need to be adjusted if found to be alternate bearing.

Growers can select a coverage level from 50 to 75 percent of their approved yield and 55 to 100 percent of the price election.

Coverage levels range from 50 to 75 percent of your approved yield. Crop insurance premiums are subsidized as shown in the following table. For example, if you choose the 65-percent coverage level, your premium share would be 41 percent of the base premium.

Item	Percent					
Coverage Level	50	55	60	65	70	75
Premium Subsidy	67	64	64	59	59	55
Your Premium Share	33	36	36	41	41	45

Catastrophic Risk Protection (CAT) coverage is fixed at 50 percent of your approved yield and 55 percent of the price election. CAT is 100-percent subsidized with no premium cost to you. There is, however, an administrative fee of \$300 per crop per county, regardless of the acreage.

Loss Example

Assume 65 percent coverage, 100-percent price election of \$2.25 per pound, an average yield of 2,400 pounds per acre, and 100-percent share.

2400	Pounds per acre average yield
<u>x 0.65</u>	Coverage level percentage
1560	Pounds per acre guarantee
<u>- 500</u>	Pounds per acre actually produced
1060	Pounds per acre loss
<u>x \$2.25</u>	Price election
\$2,385	Gross indemnity per acre

Price used above is for example only. Contact a crop insurance agent for current information.

Where to Buy Crop Insurance
