

Commodity	Irrigation Practice	County	StateCode	CountyCode	Data Source	Production Area
(0021) Cotton	(003) Non-Irrigated	Echols, GA	13	101	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Columbia-FL, Hamilton-FL, Clinch-GA, Echols-GA, Lanier-GA, Lowndes-GA
(0021) Cotton	(003) Non-Irrigated	Effingham, GA	13	103	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Effingham-GA, Hampton-SC
(0021) Cotton	(003) Non-Irrigated	Elbert, GA	13	105	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Burke-GA, Elbert-GA, Franklin-GA, Hart-GA, Richmond-GA, Abbeville-SC, Aiken-SC, Anderson-SC, Edgefield-SC, Laurens-SC, Newberry-SC, Saluda-SC
(0021) Cotton	(003) Non-Irrigated	Emanuel, GA	13	107	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Emanuel-GA
(0021) Cotton	(003) Non-Irrigated	Evans, GA	13	109	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Bulloch-GA, Evans-GA
(0021) Cotton	(003) Non-Irrigated	Floyd, GA	13	115	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Cherokee-AL, Floyd-GA
(0021) Cotton	(003) Non-Irrigated	Franklin, GA	13	119	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Burke-GA, Elbert-GA, Franklin-GA, Hart-GA, Richmond-GA, Abbeville-SC, Aiken-SC, Anderson-SC, Edgefield-SC, Laurens-SC, Newberry-SC, Saluda-SC
(0021) Cotton	(003) Non-Irrigated	Glascok, GA	13	125	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Glascok-GA, Hancock-GA, Jefferson-GA, Warren-GA, Washington-GA
(0021) Cotton	(003) Non-Irrigated	Gordon, GA	13	129	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Cherokee-AL, Bartow-GA, Chattooga-GA, Floyd-GA, Gordon-GA, Polk-GA
(0021) Cotton	(003) Non-Irrigated	Grady, GA	13	131	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Grady-GA
(0021) Cotton	(003) Non-Irrigated	Hancock, GA	13	141	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Glascok-GA, Hancock-GA, Jefferson-GA, Johnson-GA, McDuffie-GA, Warren-GA, Washington-GA, Wilkinson-GA
(0021) Cotton	(003) Non-Irrigated	Hart, GA	13	147	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Burke-GA, Elbert-GA, Franklin-GA, Hart-GA, Richmond-GA, Abbeville-SC, Aiken-SC, Anderson-SC, Edgefield-SC, Laurens-SC, Newberry-SC, Saluda-SC
(0021) Cotton	(003) Non-Irrigated	Henry, GA	13	151	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Crawford-GA, Henry-GA, Houston-GA, Lamar-GA, Monroe-GA, Oconee-GA, Peach-GA, Pike-GA, Spalding-GA, Taylor-GA, Upson-GA, Walton-GA
(0021) Cotton	(003) Non-Irrigated	Houston, GA	13	153	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Houston-GA, Pulaski-GA
(0021) Cotton	(003) Non-Irrigated	Irwin, GA	13	155	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Irwin-GA

Commodity	Irrigation Practice	County	StateCode	CountyCode	Data Source	Production Area
(0021) Cotton	(003) Non-Irrigated	Mitchell, GA	13	205	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Mitchell-GA
(0021) Cotton	(003) Non-Irrigated	Monroe, GA	13	207	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Bibb-GA, Crawford-GA, Houston-GA, Lamar-GA, Monroe-GA, Peach-GA, Pike-GA, Spalding-GA, Taylor-GA, Twiggs-GA, Upson-GA
(0021) Cotton	(003) Non-Irrigated	Montgomery, GA	13	209	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Emanuel-GA, Montgomery-GA
(0021) Cotton	(003) Non-Irrigated	Morgan, GA	13	211	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Bibb-GA, Bleckley-GA, Crawford-GA, Dodge-GA, Hancock-GA, Houston-GA, Johnson-GA, Laurens-GA, Monroe-GA, Montgomery-GA, Morgan-GA, Peach-GA, Pulaski-GA, Treutlen-GA, Twiggs-GA, Washington-GA, Wheeler-GA, Wilkinson-GA
(0021) Cotton	(003) Non-Irrigated	Oconee, GA	13	219	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Crawford-GA, Henry-GA, Houston-GA, Lamar-GA, Monroe-GA, Oconee-GA, Peach-GA, Pike-GA, Spalding-GA, Taylor-GA, Upson-GA, Walton-GA
(0021) Cotton	(003) Non-Irrigated	Peach, GA	13	225	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Bibb-GA, Crawford-GA, Houston-GA, Macon-GA, Peach-GA, Taylor-GA
(0021) Cotton	(003) Non-Irrigated	Pierce, GA	13	229	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Pierce-GA
(0021) Cotton	(003) Non-Irrigated	Pike, GA	13	231	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Henry-GA, Lamar-GA, Macon-GA, Marion-GA, Pike-GA, Schley-GA, Spalding-GA, Taylor-GA, Upson-GA
(0021) Cotton	(003) Non-Irrigated	Polk, GA	13	233	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Cherokee-AL, Polk-GA
(0021) Cotton	(003) Non-Irrigated	Pulaski, GA	13	235	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Pulaski-GA
(0021) Cotton	(003) Non-Irrigated	Quitman, GA	13	239	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Barbour-AL, Clay-GA, Quitman-GA, Randolph-GA, Stewart-GA
(0021) Cotton	(003) Non-Irrigated	Randolph, GA	13	243	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Randolph-GA, Terrell-GA
(0021) Cotton	(003) Non-Irrigated	Richmond, GA	13	245	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Burke-GA, Richmond-GA
(0021) Cotton	(003) Non-Irrigated	Schley, GA	13	249	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Schley-GA, Sumter-GA
(0021) Cotton	(003) Non-Irrigated	Screven, GA	13	251	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Screven-GA

Commodity	Irrigation Practice	County	StateCode	CountyCode	Data Source	Production Area
(0021) Cotton	(003) Non-Irrigated	Walton, GA	13	297	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Crawford-GA, Henry-GA, Houston-GA, Lamar-GA, Monroe-GA, Oconee-GA, Peach-GA, Pike-GA, Spalding-GA, Taylor-GA, Upson-GA, Walton-GA
(0021) Cotton	(003) Non-Irrigated	Ware, GA	13	299	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Atkinson-GA, Ware-GA
(0021) Cotton	(003) Non-Irrigated	Warren, GA	13	301	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Glascock-GA, Hancock-GA, Jefferson-GA, McDuffie-GA, Warren-GA
(0021) Cotton	(003) Non-Irrigated	Washington, GA	13	303	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Glascock-GA, Hancock-GA, Jefferson-GA, Johnson-GA, Washington-GA, Wilkinson-GA
(0021) Cotton	(003) Non-Irrigated	Wayne, GA	13	305	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Pierce-GA, Wayne-GA
(0021) Cotton	(003) Non-Irrigated	Webster, GA	13	307	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Sumter-GA, Webster-GA
(0021) Cotton	(003) Non-Irrigated	Wheeler, GA	13	309	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Jeff Davis-GA, Wheeler-GA
(0021) Cotton	(003) Non-Irrigated	Wilcox, GA	13	315	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Wilcox-GA
(0021) Cotton	(003) Non-Irrigated	Wilkinson, GA	13	319	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Bleckley-GA, Johnson-GA, Laurens-GA, Twiggs-GA, Washington-GA, Wilkinson-GA
(0021) Cotton	(003) Non-Irrigated	Worth, GA	13	321	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Worth-GA
