

Commodity	Irrigation Practice	County	StateCode	CountyCode	Data Source	Production Area
(0021) Cotton	(003) Non-Irrigated	Cochran, TX	48	079	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Cochran-TX
(0021) Cotton	(003) Non-Irrigated	Coke, TX	48	081	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Coke-TX, Nolan-TX
(0021) Cotton	(003) Non-Irrigated	Coleman, TX	48	083	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Coleman-TX, McCulloch-TX
(0021) Cotton	(003) Non-Irrigated	Collin, TX	48	085	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Bryan-OK, Love-OK, Marshall-OK, Collin-TX, Cooke-TX, Dallas-TX, Delta-TX, Denton-TX, Ellis-TX, Fannin-TX, Grayson-TX, Hopkins-TX, Hunt-TX, Kaufman-TX, Lamar-TX, Rockwall-TX, Tarrant-TX, Van Zandt-TX
(0021) Cotton	(003) Non-Irrigated	Collingsworth, TX	48	087	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Collingsworth-TX
(0021) Cotton	(003) Non-Irrigated	Colorado, TX	48	089	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Colorado-TX, Wharton-TX
(0021) Cotton	(003) Non-Irrigated	Comanche, TX	48	093	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Archer-TX, Brown-TX, Callahan-TX, Clay-TX, Comanche-TX, Eastland-TX, Erath-TX, Parker-TX, Shackelford-TX, Stephens-TX, Throckmorton-TX, Young-TX
(0021) Cotton	(003) Non-Irrigated	Concho, TX	48	095	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Concho-TX
(0021) Cotton	(003) Non-Irrigated	Cooke, TX	48	097	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Bell-TX, Bosque-TX, Collin-TX, Cooke-TX, Coryell-TX, Dallas-TX, Delta-TX, Denton-TX, Ellis-TX, Falls-TX, Fannin-TX, Grayson-TX, Hill-TX, Hunt-TX, Johnson-TX, Kaufman-TX, Lamar-TX, Limestone-TX, McLennan-TX, Milam-TX, Navarro-TX, Rockwall-TX, Tarrant-TX, Williamson-TX
(0021) Cotton	(003) Non-Irrigated	Coryell, TX	48	099	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Bell-TX, Bosque-TX, Coryell-TX, McLennan-TX
(0021) Cotton	(003) Non-Irrigated	Cottle, TX	48	101	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Cottle-TX
(0021) Cotton	(003) Non-Irrigated	Crosby, TX	48	107	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Crosby-TX
(0021) Cotton	(003) Non-Irrigated	Dallam, TX	48	111	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Cimarron-OK, Carson-TX, Dallam-TX, Hansford-TX, Hartley-TX, Hutchinson-TX, Moore-TX, Oldham-TX, Potter-TX, Sherman-TX
(0021) Cotton	(003) Non-Irrigated	Dallas, TX	48	113	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Dallas-TX, Ellis-TX
(0021) Cotton	(003) Non-Irrigated	Dawson, TX	48	115	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Dawson-TX

Commodity	Irrigation Practice	County	StateCode	CountyCode	Data Source	Production Area
(0021) Cotton	(003) Non-Irrigated	Deaf Smith, TX	48	117	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Deaf Smith-TX
(0021) Cotton	(003) Non-Irrigated	Delta, TX	48	119	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Bell-TX, Bosque-TX, Collin-TX, Cooke-TX, Coryell-TX, Dallas-TX, Delta-TX, Denton-TX, Ellis-TX, Falls-TX, Fannin-TX, Grayson-TX, Hill-TX, Hunt-TX, Johnson-TX, Kaufman-TX, Lamar-TX, Limestone-TX, McLennan-TX, Milam-TX, Navarro-TX, Rockwall-TX, Tarrant-TX, Williamson-TX
(0021) Cotton	(003) Non-Irrigated	Denton, TX	48	121	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Bryan-OK, Love-OK, Marshall-OK, Collin-TX, Cooke-TX, Dallas-TX, Denton-TX, Ellis-TX, Fannin-TX, Grayson-TX, Hunt-TX, Johnson-TX, Kaufman-TX, Parker-TX, Rockwall-TX, Tarrant-TX
(0021) Cotton	(003) Non-Irrigated	De Witt, TX	48	123	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: De Witt-TX, Victoria-TX
(0021) Cotton	(003) Non-Irrigated	Dickens, TX	48	125	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Dickens-TX
(0021) Cotton	(003) Non-Irrigated	Dimmit, TX	48	127	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Atascosa-TX, Dimmit-TX, Duval-TX, Frio-TX, Jim Hogg-TX, Kinney-TX, La Salle-TX, Medina-TX, Uvalde-TX, Webb-TX, Zapata-TX, Zavala-TX
(0021) Cotton	(003) Non-Irrigated	Donley, TX	48	129	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Donley-TX, Gray-TX
(0021) Cotton	(003) Non-Irrigated	Duval, TX	48	131	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Duval-TX, Jim Wells-TX
(0021) Cotton	(003) Non-Irrigated	Eastland, TX	48	133	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Archer-TX, Brown-TX, Callahan-TX, Clay-TX, Comanche-TX, Eastland-TX, Erath-TX, Parker-TX, Shackelford-TX, Stephens-TX, Throckmorton-TX, Young-TX
(0021) Cotton	(003) Non-Irrigated	Ellis, TX	48	139	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Ellis-TX
(0021) Cotton	(003) Non-Irrigated	Erath, TX	48	143	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Archer-TX, Brown-TX, Callahan-TX, Clay-TX, Comanche-TX, Eastland-TX, Erath-TX, Parker-TX, Shackelford-TX, Stephens-TX, Throckmorton-TX, Young-TX
(0021) Cotton	(003) Non-Irrigated	Falls, TX	48	145	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Bell-TX, Falls-TX, Limestone-TX, McLennan-TX, Milam-TX, Robertson-TX
(0021) Cotton	(003) Non-Irrigated	Fannin, TX	48	147	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Bell-TX, Bosque-TX, Collin-TX, Cooke-TX, Coryell-TX, Dallas-TX, Delta-TX, Denton-TX, Ellis-TX, Falls-TX, Fannin-TX, Grayson-TX, Hill-TX, Hunt-TX, Johnson-TX, Kaufman-TX, Lamar-TX, Limestone-TX, McLennan-TX, Milam-TX, Navarro-TX, Rockwall-TX, Tarrant-TX, Williamson-TX
(0021) Cotton	(003) Non-Irrigated	Fayette, TX	48	149	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Austin-TX, Bastrop-TX, Caldwell-TX, Colorado-TX, Fayette-TX, Gonzales-TX, Lavaca-TX, Lee-TX, Washington-TX
(0021) Cotton	(003) Non-Irrigated	Fisher, TX	48	151	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Fisher-TX

Commodity	Irrigation Practice	County	StateCode	CountyCode	Data Source	Production Area
(0021) Cotton	(003) Non-Irrigated	Floyd, TX	48	153	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Floyd-TX
(0021) Cotton	(003) Non-Irrigated	Foard, TX	48	155	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Cottle-TX, Foard-TX
(0021) Cotton	(003) Non-Irrigated	Fort Bend, TX	48	157	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Fort Bend-TX
(0021) Cotton	(003) Non-Irrigated	Frio, TX	48	163	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Atascosa-TX, Dimmit-TX, Frio-TX, La Salle-TX, Medina-TX, Uvalde-TX, Zavala-TX
(0021) Cotton	(003) Non-Irrigated	Gaines, TX	48	165	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Gaines-TX
(0021) Cotton	(003) Non-Irrigated	Garza, TX	48	169	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Garza-TX
(0021) Cotton	(003) Non-Irrigated	Glasscock, TX	48	173	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Glasscock-TX
(0021) Cotton	(003) Non-Irrigated	Goliad, TX	48	175	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Goliad-TX, Victoria-TX
(0021) Cotton	(003) Non-Irrigated	Gonzales, TX	48	177	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Bastrop-TX, Caldwell-TX, De Witt-TX, Fayette-TX, Gonzales-TX, Guadalupe-TX, Karnes-TX, Lavaca-TX, Wilson-TX
(0021) Cotton	(003) Non-Irrigated	Gray, TX	48	179	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Gray-TX
(0021) Cotton	(003) Non-Irrigated	Grayson, TX	48	181	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Bell-TX, Bosque-TX, Collin-TX, Cooke-TX, Coryell-TX, Dallas-TX, Delta-TX, Denton-TX, Ellis-TX, Falls-TX, Fannin-TX, Grayson-TX, Hill-TX, Hunt-TX, Johnson-TX, Kaufman-TX, Lamar-TX, Limestone-TX, McLennan-TX, Milam-TX, Navarro-TX, Rockwall-TX, Tarrant-TX, Williamson-TX
(0021) Cotton	(003) Non-Irrigated	Guadalupe, TX	48	187	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Bexar-TX, Caldwell-TX, Gonzales-TX, Guadalupe-TX, Hays-TX, Wilson-TX
(0021) Cotton	(003) Non-Irrigated	Hale, TX	48	189	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Hale-TX
(0021) Cotton	(003) Non-Irrigated	Hall, TX	48	191	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Hall-TX
(0021) Cotton	(003) Non-Irrigated	Hansford, TX	48	195	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Hansford-TX, Hutchinson-TX, Moore-TX, Ochiltree-TX, Roberts-TX, Sherman-TX

Commodity	Irrigation Practice	County	StateCode	CountyCode	Data Source	Production Area
(0021) Cotton	(003) Non-Irrigated	Hardeman, TX	48	197	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Cottle-TX, Hardeman-TX
(0021) Cotton	(003) Non-Irrigated	Hartley, TX	48	205	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Cimarron-OK, Carson-TX, Dallam-TX, Hansford-TX, Hartley-TX, Hutchinson-TX, Moore-TX, Oldham-TX, Potter-TX, Sherman-TX
(0021) Cotton	(003) Non-Irrigated	Haskell, TX	48	207	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Haskell-TX
(0021) Cotton	(003) Non-Irrigated	Hays, TX	48	209	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Caldwell-TX, Guadalupe-TX, Hays-TX, Travis-TX
(0021) Cotton	(003) Non-Irrigated	Hidalgo, TX	48	215	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Hidalgo-TX
(0021) Cotton	(003) Non-Irrigated	Hill, TX	48	217	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Hill-TX
(0021) Cotton	(003) Non-Irrigated	Hockley, TX	48	219	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Hockley-TX
(0021) Cotton	(003) Non-Irrigated	Hopkins, TX	48	223	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Bryan-OK, Collin-TX, Dallas-TX, Delta-TX, Ellis-TX, Fannin-TX, Hopkins-TX, Hunt-TX, Lamar-TX, Red River-TX
(0021) Cotton	(003) Non-Irrigated	Houston, TX	48	225	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Anderson-TX, Brazos-TX, Houston-TX, Leon-TX, Limestone-TX, Navarro-TX, Robertson-TX, Walker-TX
(0021) Cotton	(003) Non-Irrigated	Howard, TX	48	227	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Howard-TX
(0021) Cotton	(003) Non-Irrigated	Hunt, TX	48	231	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Bryan-OK, Collin-TX, Dallas-TX, Delta-TX, Denton-TX, Ellis-TX, Fannin-TX, Grayson-TX, Hopkins-TX, Hunt-TX, Kaufman-TX, Lamar-TX, Navarro-TX, Red River-TX, Rockwall-TX, Van Zandt-TX
(0021) Cotton	(003) Non-Irrigated	Hutchinson, TX	48	233	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Gray-TX, Hutchinson-TX
(0021) Cotton	(003) Non-Irrigated	Irion, TX	48	235	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Irion-TX, Schleicher-TX
(0021) Cotton	(003) Non-Irrigated	Jackson, TX	48	239	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Jackson-TX
(0021) Cotton	(003) Non-Irrigated	Jim Hogg, TX	48	247	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Atascosa-TX, Brooks-TX, Dimmit-TX, Duval-TX, Frio-TX, Jim Hogg-TX, Jim Wells-TX, La Salle-TX, Live Oak-TX, Webb-TX, Zapata-TX, Zavala-TX

Commodity	Irrigation Practice	County	StateCode	CountyCode	Data Source	Production Area
(0021) Cotton	(003) Non-Irrigated	Jim Wells, TX	48	249	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Jim Wells-TX
(0021) Cotton	(003) Non-Irrigated	Johnson, TX	48	251	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Ellis-TX, Johnson-TX
(0021) Cotton	(003) Non-Irrigated	Jones, TX	48	253	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Jones-TX
(0021) Cotton	(003) Non-Irrigated	Karnes, TX	48	255	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Atascosa-TX, Bee-TX, De Witt-TX, Goliad-TX, Gonzales-TX, Karnes-TX, Live Oak TX, Wilson-TX
(0021) Cotton	(003) Non-Irrigated	Kaufman, TX	48	257	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Kaufman-TX, Navarro-TX
(0021) Cotton	(003) Non-Irrigated	Kent, TX	48	263	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Kent-TX, Stonewall-TX
(0021) Cotton	(003) Non-Irrigated	King, TX	48	269	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Cottle-TX, King-TX
(0021) Cotton	(003) Non-Irrigated	Kinney, TX	48	271	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Dimmit-TX, Frio-TX, Kinney-TX, La Salle-TX, Medina-TX, Uvalde-TX, Zavala-TX
(0021) Cotton	(003) Non-Irrigated	Kleberg, TX	48	273	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Kleberg-TX
(0021) Cotton	(003) Non-Irrigated	Knox, TX	48	275	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Knox-TX
(0021) Cotton	(003) Non-Irrigated	Lamar, TX	48	277	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Bell-TX, Bosque-TX, Collin-TX, Cooke-TX, Coryell-TX, Dallas-TX, Delta-TX, Denton-TX, Ellis-TX, Falls-TX, Fannin-TX, Grayson-TX, Hill-TX, Hunt-TX, Johnson-TX, Kaufman-TX, Lamar-TX, Limestone-TX, McLennan-TX, Milam-TX, Navarro-TX, Rockwall-TX, Tarrant-TX, Williamson-TX
(0021) Cotton	(003) Non-Irrigated	Lamb, TX	48	279	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Lamb-TX
(0021) Cotton	(003) Non-Irrigated	La Salle, TX	48	283	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Atascosa-TX, Brooks-TX, Dimmit-TX, Duval-TX, Frio-TX, Jim Hogg-TX, Jim Wells-TX, La Salle-TX, Live Oak-TX, Webb-TX, Zapata-TX, Zavala-TX
(0021) Cotton	(003) Non-Irrigated	Lavaca, TX	48	285	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Lavaca-TX, Victoria-TX
(0021) Cotton	(003) Non-Irrigated	Lee, TX	48	287	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Lee-TX, Williamson-TX

Commodity	Irrigation Practice	County	StateCode	CountyCode	Data Source	Production Area
(0021) Cotton	(003) Non-Irrigated	Navarro, TX	48	349	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Navarro-TX
(0021) Cotton	(003) Non-Irrigated	Nolan, TX	48	353	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Nolan-TX
(0021) Cotton	(003) Non-Irrigated	Nueces, TX	48	355	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Nueces-TX
(0021) Cotton	(003) Non-Irrigated	Ochiltree, TX	48	357	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Hansford-TX, Hutchinson-TX, Ochiltree-TX, Roberts-TX
(0021) Cotton	(003) Non-Irrigated	Oldham, TX	48	359	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Deaf Smith-TX, Oldham-TX
(0021) Cotton	(003) Non-Irrigated	Parker, TX	48	367	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Archer-TX, Brown-TX, Callahan-TX, Clay-TX, Comanche-TX, Eastland-TX, Erath-TX, Parker-TX, Shackelford-TX, Stephens-TX, Throckmorton-TX, Young-TX
(0021) Cotton	(003) Non-Irrigated	Parmer, TX	48	369	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Deaf Smith-TX, Parmer-TX
(0021) Cotton	(003) Non-Irrigated	Potter, TX	48	375	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Carson-TX, Potter-TX
(0021) Cotton	(003) Non-Irrigated	Randall, TX	48	381	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Randall-TX, Swisher-TX
(0021) Cotton	(003) Non-Irrigated	Reagan, TX	48	383	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Reagan-TX
(0021) Cotton	(003) Non-Irrigated	Red River, TX	48	387	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of non-irrigated upland cotton production by the RMA estimate of non-irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Bryan-OK, Collin-TX, Dallas-TX, Delta-TX, Ellis-TX, Fannin-TX, Hopkins-TX, Hunt-TX, Lamar-TX, Red River-TX
(0021) Cotton	(003) Non-Irrigated	Refugio, TX	48	391	The data source for the area yield used for this offer is RMA.
