PART 3 PAYMENT RULES

21 General Information

(1) HSR payments will not be made on any HSR acreage that:

   (a) is harvested before meeting the notice requirements contained in the HSR CP; and

   (b) does not meet the eligibility requirements of the HSR CP.

(2) In certain situations, producers may be granted approval from AIPs to leave one complete planting pattern in the field, which will be identified as a “strip,” if acreage is damaged and an adjuster cannot get to the insured in a timely fashion. In such cases the “strip” will be carried to harvest and the harvested production, with corresponding weight tickets and moisture adjusted to 12.5%, will be used for verification and validation of loss.

22 Qualifications for a Hybrid Seed Rice Payment

To qualify for a HSR payment, the HSR acreage must:

(1) be eligible acreage;

(2) be under a processor contract with a seed company; and

(3) be planted to an approved rice hybrid from the seed company.

23-30 (Reserved)
