#### **Statement**

#### General

#### SET OUT YEAR AND LEAF YEAR

The SET OUT YEAR for APH reporting purposes is the actual calendar year for acreage planted before July 1st. For acreage planted on or after July 1st, the SET OUT YEAR shall be the year following the calendar year in which set out actually occurred.

To determine LEAF YEAR, subtract the set out year from the calendar year of insurance (or APH crop year for the yield substitution purposes), then add one year. Contact your agent regarding possible premium discounts, options, and/or additional coverage that may be available.

### Type

In accordance with section 2(b) of the Apple Crop Provisions, you may divide a unit into optional units by type; however, you may not establish an optional unit for type "Fresh 111" in combination with an optional unit for a type identified as a Varietal Group in the actuarial documents. For each unit for which you qualify, you may not report type "Fresh 111" if you also report a type identified as a Varietal Group in the actuarial documents.

\*4 Varietal Group C insurable varieties: All other Apple varieties not specified in Group B or Group A if applicable.
