Filing a Request

If you would like to request insurance on a crop that is not insurable in your county, but is insurable in other counties, you may complete and submit a Request for Actuarial Change through a crop insurance agent.

Requirements for Making a Request

A completed request must contain at least the following supporting documentation:

- Acceptable acreage and production records for at least the most recent 3 consecutive crop years.
- Confirmation from agricultural experts that the crop can be produced in the county unless RMA does not require such evidence.
- Dates you and other growers in the area normally plant and harvest the crop.
- Name, location, and approximate distance to the place the crop will be sold or used by the producer.
- For an irrigated practice, the water source, method of irrigation, and amount of water needed for an irrigated practice for the crop.
- The legal description of the requested land with FSA farm numbers, tract numbers, and field numbers; or FSA aerial photographs or other GPS maps that are legible and clearly define where you intend to plant or have planted the requested crop.
- If the requested crop has not been planted in the county, you must verify with a signature.
- Pre-Acceptance Inspection Report (PAIR) and Pre-Acceptance Worksheet (PAW) are applicable only to perennial crops.
