

PRODUCT MANAGEMENT BULLETIN: PM-17-018

DATE March 30, 2017

TO: All Approved Insurance Providers
All Risk Management Agency Field Offices
All Other Interested Parties

FROM: Richard H. Flournoy, Deputy Administrator /s/ Richard H. Flournoy 3/30/2017

SUBJECT: 2016 Crop Year Area Risk Protection Insurance (ARPI) and Supplemental Coverage Option (SCO) Final County Yields and Final County Revenues for Wheat; 2016 Crop Year Margin Protection (MP) Final County Yields, Harvest Revenue and Harvest Margins for Wheat

In accordance with Section 3 of the ARPI Crop Provisions, Section 10 of the SCO Endorsement, and Section 14 of the MP Crop Provisions approved final county yields, final county revenues, harvest revenues and harvest margins for 2016 crop year wheat will be available by close of business today in the following formats:

- Actuarial Information Browser (AIB) online reporting application:
webapp.rma.usda.gov/apps/actuarialinformationbrowser2016
- Actuarial Data Master (ADM) bulk data file download:
pubfs-rma.fpac.usda.gov/pub/References/actuarial_data_master/index.html/2016
- Summary listing:
webapp.rma.usda.gov/apps/RIRS/AreaPlanReports

In some situations for SCO, the production area used to establish the expected yield did not have any final reported yields. In these instances, the Risk Management Agency (RMA) determined final county yields in accordance with the SCO Endorsement. The attachment identifies the source of the final county yield determination in the affected counties.

In some situations for ARPI, the National Agricultural Statistics Service (NASS) was unable to publish a county estimate on the same basis as the offer available. Where NASS was unable to publish a county estimate, RMA determined the final county yield in accordance with the ARPI basic provisions. The attachment identifies the RMA basis for final county yield determination in the affected counties with policies.
