SUBJECT: Hurricane Insurance Protection-Wind Index (HIP-WI) Changes Effective for the 2024  
and Succeeding Crop Years for Crops with a HIP-WI Contract Change Date of June  
30, 2023, or Later

## Background

When provided in the actuarial documents, the HIP-WI Endorsement is available for both Catastrophic (CAT) and additional coverage for Common Crop Insurance Policy Basic Provisions policies.

The following changes are applicable for the 2024 and succeeding crop years:

- Added that for the initial year the Tropical Storm option is elected, coverage will not begin until the later of 14 days after the sales closing date or the end of the waiting period for the Underlying Policy when the Underlying Policy also requires a similar waiting period.
- Clarified definition of "Weather Event" to indicate the conditions necessary to qualify as a hurricane or tropical storm.

## Action

The following documents will be available by close of business today on the Risk Management Agency (RMA) website at [www.rma.usda.gov](http://www.rma.usda.gov):
