Crop Insurance Deadline Nears in Michigan

Producers Need to Make Insurance Decisions Soon

Springfield, ILL., Feb. 25, 2021 — USDA's Risk Management Agency (RMA) reminds Michigan producers that the final date to apply for crop insurance on spring crops is March 15 for the 2021 crop year. Current policyholders who wish to make changes to their existing coverage also have until the March 15 sales closing date to do so.

Federal crop insurance is critical to the farm safety net. It helps producers and owners manage revenue risks and strengthens the rural economy. Producers may select from several coverage options, including yield coverage, revenue protection, and area risk policies. Information on available coverage in select counties can be found on the RMA website on the [Actuarial Information Browser](#) page.

Producers are encouraged to visit their crop insurance agent soon to learn specific details for the 2021 crop year. Agents can help producers determine what policy works best for their operation and review existing coverage to ensure the policy meets their needs.

RMA is authorizing additional flexibilities due to coronavirus while continuing to support producers, working through AIPs to deliver services, including processing policies, claims, and agreements. RMA staff are working with AIPs and other customers by phone, mail, and electronically to continue supporting crop insurance coverage for producers. Farmers with crop insurance questions or needs should continue to contact their crop insurance agents about conducting business remotely (by telephone or email). More information can be found at farmers.gov/coronavirus.

Crop insurance is sold and delivered solely through private crop insurance agents. A list of crop insurance agents is available online using the RMA [Agent Locator](#). Producers can use the RMA [Cost Estimator](#) to get a premium amount estimate of their insurance needs online. Learn more about crop insurance and the modern farm safety net at www.rma.usda.gov.
