Crop Insured
Forage seeding is insurable if:
- It is alfalfa, or forage mixture containing at least 50 percent alfalfa, clover, birdsfoot trefoil, or any other locally recognized and approved forage legume species (by weight); or
- It is planted during the current crop year to establish a normal stand of forage.
This policy does not cover any acreage that is:
- Grown with the intent to be grazed, or grazed at any time during the insurance period; or
- Interplanted with another crop (except nurse crops).

Counties Available
Insurable counties with the forage seeding program may be found in the actuarial documents at webapp.rma.usda.gov/apps/actuarialinformation browser2018crop criteria.aspx. Forage seeding may be insurable in other counties by written agreement if specific criteria are met. Contact a crop insurance agent for more details.

Causes of Loss
You are protected against the following:
- Adverse weather conditions, including natural perils such as hail, frost, freeze, wind, drought, and excess precipitation;
- Failure of irrigation water supply, if caused by an insured peril during the insurance period;
- Fire, if caused by an insured peril during the insurance period;
- Insect damage and plant disease, except for insufficient or improper application of control measures; and
- Wildlife.

Insurance Period
Coverage begins on the date we accept your application or the date when the crop is planted. Coverage ends with the earliest occurrence of one of the following:
- Total destruction of the crop;
- Harvest of the unit;
- Final adjustment of a loss;
- Abandonment of the crop;
- The date grazing starts on the insured crop; or
- October 15 for fall-planted forage, or May 21 for acreage seeded in the spring.

Important Dates
Fall-seeded
- Sales Closing Date .................. July 31, 2017
- New Jersey, New York, Pennsylvania, Vermont:
  - Final Planting Date .................. August 31, 2017
  - Acreage Report Date .......... November 15, 2017
- Maryland:
  - Acreage Report Date .......... December 15, 2017
- Allegany and Garrett Counties:
  - Final Planting Date .................. August 31, 2017
- All other Maryland Counties:
  - Final Planting Date ............. September 10, 2017

Spring-seeded
- Sales Closing Date .................. March 15, 2018
- Acreage Report Dates
  - Maryland, New York, Vermont . May 15, 2018
  - New Jersey, Pennsylvania .......... June 15, 2018
  - Maine ................................. August 15, 2018
- Final Planting Dates
  - Maine ................................. August 10, 2018
- New Jersey, New York, Pennsylvania, Vermont:
  - Final Planting Date ............. May 10, 2018
- Maryland:
  - Allegany and Garrett Counties:
    - Final Planting Date ............. May 10, 2018
- All other Maryland Counties:
  - Final Planting Date ............. April 30, 2018

This fact sheet gives only a general overview of the crop insurance program and is not a complete policy. For further information and an evaluation of your risk management needs, contact a crop insurance agent.
Reporting Requirements
You must file a report of planted acreage to your crop insurance agent by the acreage reporting date. Since acreage reporting dates vary by crop and county, consult your agent or for more information see www.rma.usda.gov/tools/.

Duties in the Event of Damage or Loss
Notice of Loss - If a loss occurs you should:
- Protect the crop from further damage by providing sufficient care;
- Notify your agent within 72 hours of your initial discovery of damage (but not later than 15 days after the end of the insurance period); and
- Leave representative samples intact for each field of the damaged unit.

Replanting Provisions
A replanting payment may be allowed only in counties with both fall and spring planting dates if:
- Fall-planted acreage is damaged by an insurable cause and less than 75 percent of a normal stand remains (a minimum of nine live plants per square foot will be considered to be a normal stand for loss adjustment);
- It is practical to replant;
- We give written consent to replant; and
- Such acreage is replanted the following spring by the spring final planting date. The replant payment is 50 percent of the determined indemnity.
A replanting payment will not be allowed in counties where the forage seeding was initially planted in the spring. You must replant the spring-planted forage at your own expense, if it is practical to replant.

Loss Example
Assume one basic unit of 50 acres of spring-seeded forage at 65-percent coverage level with a 10 acre fully established stand and 40 acres at 50-percent stand.

\[
\begin{align*}
\text{Insurance amount per acre} & \times \text{Spring-seeded forage acres} \\
$220 & \times 50 \\
$11,000 & \text{Protection in force} \\
$220 & \text{Insurance amount per acre} \\
\times 10 & \text{Fully established stand acres} \\
$2,200 & \text{Production-to-count} \\
$11,000 & \text{Protection in force} \\
\mathbf{\$8,800} & \text{Amount of loss}
\end{align*}
\]

Price used is for example only. Contact a crop insurance agent for current information.

Where to Buy Crop Insurance
All multi-peril crop insurance, including CAT policies, are available from private insurance agents. A list of crop insurance agents is available at all USDA service centers and on the RMA website at www.rma.usda.gov/tools/agent.html.
