- If Entity Type (field 4) = ‘S’ and Id Type (field 2) = ‘2’ for an the entity then there must be 2 SBI records.

**Non-Citizen SSN Reporting:**

MGR-05-008 does not apply to the current products that are processed by eDAS. The following information still applies.

In accordance with the Federal Crop Insurance Act and the Common Crop Insurance Policy Basic Provisions, the submission of a Social Security Number (SSN) or Employer Identification Number (EIN) is required to participate in the multiple peril crop insurance program or Livestock Insurance Program. Additionally, the Standard Reinsurance Agreement and Livestock Price Reinsurance Agreement definitions provide that an eligible crop insurance contract is for an eligible producer who possesses an EIN or SSN. If the non-citizen cannot provide a SSN, even if it is due to not being eligible for a SSN, the amount of coverage for all crops included on the application must be reduced proportionately by the percentage interest in the insured of such persons in accordance with Section 2(b)(2(i) of the Basic Provisions.

Consistent with current policy provisions and the Act, RMA’s systems require a SSN for all individuals, including non-citizens, receiving benefits through the crop insurance program either as a policyholder or as a person with substantial beneficial interest in a policyholder. Securing of a SSN will be the sole responsibility of those individuals needing such and RMA will not provide a letter or other recommendations on behalf of the individual to obtain such. They must meet all requirements of the Social Security Administration under their current operating procedures.
