PROCESSING SWEET CORN LOSS ADJUSTMENT STANDARDS HANDBOOK

2018 and Succeeding Crop Years

**RISK MANAGEMENT AGENCY
KANSAS CITY, MO 64133**

TITLE: Processing Sweet Corn Loss Adjustment Standards Handbook	NUMBER: 25480
EFFECTIVE DATE: 2018 and Succeeding Crop Years	ISSUE DATE: November 9, 2017
SUBJECT: Provides the procedures and instructions for administering the Processing Sweet Corn crop insurance program	OPI: Product Administration and Standards Division APPROVED: <i>/s/ Richard H. Flourney</i> Deputy Administrator for Product Management

REASON FOR ISSUANCE

Major changes: See changes or additions in text which have been highlighted. Three stars (***) identify information that has been removed.

1. Revised the handbook to incorporate the most recent FCIC loss adjustment handbook standards format and standard language. Many paragraphs and sections within the handbook were rewritten or relocated to increase clarity and understanding. The handbook, references were revised to reflect the new handbook format, removal and rearrangement of various sections and tables. Changes were made to correct spelling, punctuation, formatting and to correct subparagraph and section numbering.
2. Reformatted the handbook into Parts, paragraphs, subparagraphs, sections, subsections and exhibits in accordance with the new handbook standards format.
3. Paragraph 27(4): Updated items to include all items that are required.
4. Exhibit 1: Updated to include all acronyms throughout this handbook.
5. Exhibit 4 Item 31a: Updated language to state there should be an entry on PW when acreage is bypassed due to damage from an insured cause of loss.
6. Throughout the handbook replaced Prevented Planting Handbook with PPSH.
7. Throughout the handbook replaced Production Worksheet with PW.

FILING INSTRUCTIONS:

This handbook replaces the 2014 Processing Sweet Corn Loss Adjustment Standards Handbook, FCIC-25480-1 (11-2013). This handbook is effective for the 2018 and succeeding crop years and is not retroactive to any 2014 or prior crop year determinations.

PART 1 GENERAL INFORMATION AND RESPONSIBILITIES

1 General Information

A. Purpose and Objective

The RMA-issued loss adjustment standards for this crop are the official standard requirements for adjusting losses in a uniform and timely manner. The RMA issued standards for this crop and crop year are in effect as of the signature date for this crop handbook located at www.rma.usda.gov/handbooks/25000/index.html

This handbook remains in effect until superseded by reissuance of either the entire handbook or selected portions (through slipsheets or bulletins). If slipsheets have been issued for a handbook the original handbook as amended by slipsheet pages shall constitute the handbook. A bulletin or FAD can supersede either the original handbook or subsequent slipsheets.

B. Related Handbooks

The following table identifies handbooks that shall be used in conjunction with this handbook.

Handbook	Relation/Purpose
CIH	Provides overall general underwriting (not crop specific) process.
DSSH	Provides the form standards and procedures for use in the sales and service of crop insurance contracts.
GSH	Provides general crop insurance information.
LAM	Provides overall general loss adjustment (not crop-specific) process.

- (1) Terms, abbreviations, and definitions general (not crop specific) to loss adjustment are identified in the GSH.
- (2) Terms, abbreviations, and definitions specific to Processing Sweet Corn loss adjustment standards handbook are in exhibits 1 and 2, herein.

C. CAT Coverage

Refer to CIH, GSH, and LAM for provisions and procedures not applicable to CAT coverage.

2 AIP Responsibilities

A. Utilization of Standards

AIPs shall utilize these standards for both loss adjustment and loss adjustment training for the applicable crop year. These standards which include crop appraisal methods, claims completion instructions and form standards, supplement the general (not crop specific) loss adjustment standards identified in the LAM.

B. Form Distribution

The following is the minimum distribution of forms completed by the adjuster and signed by the insured (or the insured's authorized representative) for the loss adjustment inspection.

- (1) One legible copy to the insured; and
- (2) The original and all remaining copies as instructed by the AIP.

C. Record Retention

It is the AIP's responsibility to maintain records (documents) as stated in the SRA and described in the LAM.

D. Form Standards

- (1) The entry items in exhibits 3-4 are the minimum requirements for the Appraisal Worksheets and PW. All entry items are "Substantive" (they are required).
- (2) The Privacy Act and Non-Discrimination statements are required statements that must be printed on the form or provided to the insured as a separate document. These statements are not shown on the example form(s) in exhibits 3-4. The current Non-Discrimination Statement and Privacy Act Statement can be found on the RMA website at <http://www.rma.usda.gov/regs/required.html> or successor website.
- (3) The certification statement required by the current DSSH must be included on the PW directly above the insured's signature block immediately followed by the statement below:

"I understand the certified information on this Production Worksheet will be used to determine my loss, if any to the above unit. The Approved Insurance Provider may audit and approve this information and supporting documentation. The Federal Crop Insurance Corporation, an agency of the United States, subsidizes and reinsures this crop insurance."
- (4) Refer to the DSSH for other crop insurance form requirements (such as point size of font, and so forth).

3-10 (Reserved)

PART 2 POLICY INFORMATION

The AIP determines the insured has complied with all policy provisions of the insurance contract. The CP, which are to be considered in this determination, include (but are not limited to) the information set forth in this part.

11 Insurability

A. Requirements

- (1) The crop insured will be all the processing sweet corn in the county for which premium rates are provided by the actuarial documents:
 - (a) In which the insured has a share; and
 - (b) That is grown under and in accordance with, the requirements of a processor contract executed on or before the acreage reporting date and not excluded from the processor contract any time during the crop year.
- (2) Processing sweet corn will not be insured if:
 - (a) Interplanted with another crop;
 - (b) Planted into an established grass or legume;
- (3) Any acreage of the insured crop damaged before the final planting date to the extent that the majority of producers in the area would normally not further care for the crop, must be replanted unless the AIP agrees that it is not practical to replant. Refer to the LAM for replanting provision issues.
- (4) Insurance is not provided on any acreage of processing sweet corn that does not meet crop rotation requirements, if applicable, contained in the SP.
- (5) Refer to the LAM for guidelines relative to “Bypassed Acreage.”
- (6) For processor contracts that stipulate the amount of production to be delivered, all production from any basic unit in excess of the amount under contract will be included as production to count if such production is applied to any other basic unit for which the contracted amount has not been fulfilled.

12 Unit Division

Refer to the insurance contract for unit provisions. Unless limited by the CP or SP, a basic unit, as defined in the BP, may be divided into optional units if, for each optional unit, all the conditions stated in the applicable provisions are met.

- (1) For processor contracts that stipulate the number of acres to be planted, refer to the BP.
- (2) For processor contracts that stipulate the amount of production to be delivered, refer to the CP.

12 Unit Division (Continued)

- (a) There will be no more than one basic unit for all production contracted with each processor contract; and
- (b) Provisions that allow optional units by section, section equivalent, or FSA farm number and by irrigated and non-irrigated practices are not applicable.

13 Replanting Payment Procedures

There is currently no replanting payment available for processing sweet corn. Refer to the BP and the CP for replanting requirements prior to the final planting date.

14-20 Reserved

PART 3 APPRAISALS

21 General Information

Potential production for all types of inspections will be appraised in accordance with procedures specified in this handbook and the LAM.

22 Selecting Representative Samples for Appraisals

- (1) Determine the minimum number of required samples for a field or subfield by the field size, the average stage of growth, age (size) and general capabilities of the plants, and variability of potential production and plant damage within the field or subfield.
- (2) Split the field into subfields when:
 - (a) Variable damage causes the crop potential to appear to be significantly different within the same field; or
 - (b) The insured wishes to destroy a portion of the field.
- (3) Each field or subfield must be appraised separately.
- (4) Take not less than the minimum number (count) of representative samples required in **exhibit 5**.

23 Measuring Row Width for Sample Selection

Use these instructions for all appraisal methods.

- (1) Use a measuring tape marked in inches or convert a tape marked in tenths, to measure row width (refer to the LAM for conversion table).
- (2) Measure across three or more row spaces, from the center of the first row to the center of the fourth row (or as many rows as needed), and divide the result by the number of row spaces measured across, to determine an average row width in whole inches.

Example:

$$60 \text{ inches} \div 3 \text{ row spaces} = 20 \text{ inch average row width}$$

23 Measuring Row Width for Sample Selection (Continued)

- (3) Apply the average row width to **exhibit 6** to determine the required length of sample row.
- (4) When using two or more rows to fulfill the required length of sample row, divide the length of row required by the number of rows used in the sample. The combined length of all rows must equal the single row length.
- (5) Where rows are skipped for tractor and planter tires, refer to the LAM.

24 Stages of Growth

- (1) From emergence to early milk stage sweet corn is appraised utilizing a surviving plant method of appraisal.
- (2) From early milk stage through maturity (milk) stage, a weight method of appraisal is used.

Kernels in the blister stage are white “blisters” and contain only a colorless fluid. When kernel color starts to change (a more pearl like or light yellow color) and the interior fluid begins to become chalky, the early milk stage has been reached. Typically sweet corn will be at this transition about four days depending on environmental conditions. Use the weight method after kernels have generally reached full size within this transition.

- (3) When there are distinctly different stages within the same field, the field should be split into subfield(s).
- (4) Plant Stages of Growth

STAGE	PLANT GROWTH CHARACTERISTICS
Emergence	Seed sprouts, coleoptile comes into view above the ground.
Blister	Kernels on cob appear as watery blisters (colorless fluid).
Early Milk	Beginning of roasting ear stage. Thin chalky or milky substance in kernels.
Maturity (Milk)	Prime roasting ear stage. Milky fluid in kernel with little or no solid substance.

A. General Information

These instructions provide information on appraisal methods for:

Appraisal Method...	Use...
Surviving Plant Method	for planted acreage with no emerged seed, and on plants from emergence to early milk.
Weight Method	from early milk through maturity (milk).

If the reduction in stand is solely due to non-emerged seed due to insufficient soil moisture, do not complete appraisals prior to the time specified in the LAM. Refer to the paragraph in the LAM regarding deferred appraisals and non-emerged seed.

Appraisals represent ear and husk weight of marketable sweet corn as normally picked by harvesting equipment at harvest time.

B. Surviving Plant Method

- (1) This method is based on the number of surviving plants in a designated sample row length (use 1/100 of an acre).
- (2) Surviving plant counts are converted to tons (to tenths) per acre appraisal by multiplying the average number of plants per sample by a standard factor of 0.03. The standard factor of 0.03 is determined as follows: $0.03 = (0.6 \text{ pounds per husk and ear} \times 100) \div 2000 \text{ lbs/ton}$. This factor is shown in the Appraisal Worksheet Part I instructions, item 11. If individual average ear weight (ear and husk as would be harvested by a mechanical harvester) is anticipated to differ significantly from 0.6 pounds per ear, defer the appraisal until the Weight Method appraisal can be used.

C. Weight Method

- (1) This method is based on weighing the ear sweet corn production in a designated sample row length.
- (2) Acre sample size is determined by the anticipated per-acre appraisal. If the per acre potential is:
 - (a) Less than 2.0 tons per acre, a 1/100 acre sample size is used.
 - (b) 2.0 tons or more per acre; a 1/1000 acre sample is used.
- (3) Samples of ears and husks normally picked by harvesting equipment are weighed and average sample weight is determined.
- (4) Weights are converted to tons, to tenths, per acre by multiplying the average weight per sample by a standard factor for the area sampled. The standard factors are shown in the Appraisal Worksheet instructions, Part II item 20.

26 Deviations and Modifications

A. Deviations

Deviations in appraisal methods require FCIC written authorization (as described in the LAM) prior to implementation.

B. Modifications

There are no pre-established modifications contained in this handbook. Refer to the LAM for additional information.

27 General Information for Worksheet Entries and Completion Instructions

Appraisal Worksheet Entries and Completion Procedures

- (1) Include the AIP's name in the appraisal worksheet title if not preprinted on the AIP's worksheet or when a worksheet entry is not provided.
- (2) Include the claim number on the appraisal worksheet (when required by the AIP); when a worksheet entry is not provided.
- (3) Separate appraisal worksheets must be completed for each unit appraised (applicable to preliminary and final claims). Refer to **Part 3** herein for sampling requirements.
- (4) For every inspection complete items 1 through **6** and items 22 through 26. Complete Part I and II as instructed below.
- (5) Standard appraisal worksheet items are numbered consecutively in **exhibit 3** below. Example appraisal worksheets are provided to illustrate how to complete all entries, except the last three items on the respective appraisal worksheets.

28-30 Reserved

PART 4 PRODUCTION WORKSHEET

31 General Information for Production Worksheet Entries and Completion Procedures

PW Entries and Completion Procedures

- (1) The PW is a progressive form containing all notices of damage for all preliminary and final inspections, including “No Indemnity Due” on a unit.
- (2) If a PW has been prepared on a prior inspection, verify each entry and enter additional information as needed. If a change or correction is necessary, strike out all entries on the line and re-enter correct entries on a new line. The adjuster and insured should initial any line deletions.
- (3) Refer to the LAM for instructions regarding the following:
 - (a) Acreage report errors.
 - (b) Delayed notices and delayed claims.
 - (c) Corrected claims or fire losses (double coverage) and cases involving uninsured causes of loss, unusual situations, controversial claims, concealment, or misrepresentation.
 - (d) Claims involving a Certification Form (when all the acreage on the unit has been appraised to be put to another use or other reasons described in the LAM).
 - (e) “No Indemnity Due” claims (which must be verified by an appraisal or notification from the insured that the production exceeded the guarantee).
 - (f) A late planting period is not applicable to processing sweet corn unless allowed by the SP.
- (4) Refer to the PPSH for information on prevented planting.
- (5) The adjuster is responsible for determining if any of the insured’s requirements under the notice and claim provisions of the policy have not been met. If any have not, the adjuster should contact the AIP.
- (6) Instructions labeled “Preliminary” apply to preliminary inspections only. Instructions labeled “Final” apply to final inspections only. Instructions not labeled apply to all inspections.
- (7) If the AIP determines the claim is to be denied, refer to LAM for PW completion instructions.

32-40 Reserved

Acronyms and Abbreviations

Approved Acronym/Abbreviation	Term
AIP	Approved Insurance Provider
APH	Actual Production History
BP	Common Crop Insurance Policy Basic Provisions
CAT	Catastrophic Risk Protection
CIH	Crop Insurance Handbook
CLU	Common Land Unit
CP	Crop Provisions
DSSH	Document and Supplemental Standards Handbook
FCIC	Federal Crop Insurance Corporation
FDA	Food and Drug Administration

GPS	Global Positioning System
GSH	General Standards Handbook
LAM	Loss Adjustment Manual
PPSH	Prevented Planting Standards Handbook
PW	Production Worksheet
SP	Special Provisions
SRA	Standard Reinsurance Agreement
UUF	Uninsured Unavoidable Fire

Definitions

Base Contract Price – The price stipulated on the processor contract without regard to discounts or incentives that may apply.

Bypassed Acreage – Land on which production is ready for harvest but the processor elects not to accept such production so it is not harvested.

Harvest – The removal of the ears from the stalks for the purpose of delivery to the processor.

Planted Acreage – In addition to the definition contained in the BP, sweet corn must initially be planted in rows far enough apart to permit mechanical cultivation. Acreage planted in any other manner will not be insurable unless otherwise provided by the SP or by written agreement.

Processor Contract – A written agreement between the producer and a processor, containing at a minimum:

- (a) The producer's commitment to plant and grow sweet corn, and deliver the sweet corn to the processor;
- (b) The processor's commitment to purchase all of the production stated in the processor contract; and
- (c) A base contract price.

Multiple contracts with the same processor that specify amounts of production will be considered as a single processor contract, unless the contracts are for different types. Your base contract price will be the weighted average of all applicable base contract prices.

Unhusked Ear Weight – Weight of the seed-bearing spike of sweet corn including the membranous or green outer envelope.

Usable Tons – The quantity of sweet corn for which the producer is compensated or should have been compensated by the processor.

Form Standards – Appraisal Worksheet

Part I Surviving Plant Method

Item Number/Element	Standard
1. Company:	Name of AIP, if not preprinted on the worksheet (Company Name).
2. Claim No.:	Claim number as assigned by the AIP.
3. Insured's Name:	Name of the insured that identifies exactly the person (legal entity) to whom the policy is issued.
4. Policy No.:	Insured's assigned policy number.
5. Unit No.:	Unit number from the Summary of Coverage after it is verified to be correct.
6. Crop Year:	Four digit crop year, as defined in the policy, for which the claim is filed.
7. Field ID:	Field identification symbol.
8. Row Width, Inches:	Row width to the nearest inch. Refer to paragraph 23 for row width determination information.
9. Number of Surviving Plants:	Number of plants in the sample capable of producing an ear. Refer to paragraph 23 and exhibit 6 for sample row length.
10. Total of All Samples:	Total number of surviving plants from all samples (item 9) for the field or subfield.
11. Number of Samples:	Number of samples (item 9) for the field or subfield.
12. Avg. No. of Plants Per Sample:	Total of all samples (item 10) divided by number of samples (item 11) rounded to tenths.
13. Percent Factor:	The standard factor, "0.03."
14. Appraisal Per Acre:	Average Number of Plants per Sample (item 12) x Factor (item 13) in tons, to the nearest tenth.

Part II Weight Method

15. Fraction of Acre Sample:	Indicate size of sample utilized. Refer to paragraph 25C for sample size selection criteria.
16. Field ID:	Field identification symbol.
17. Row Width, Inches:	Row width to nearest inch. Refer to paragraph 23 for row width determination information.
18. Total Per Sample:	The weight of sweet corn ears and husks harvested for each sample, to the nearest tenth of a pound. Include husks normally included by a mechanical harvester.
19. Total of All Samples:	The total weight, to tenths of a pound, of all samples (item 18) for the field or subfield.
20. Number of Samples:	Number of samples in item 18 for the field or subfield.
21. Avg. per Sample:	The average weight per sample, to nearest tenth of a pound. Divide the Total of All Samples (item 17) by Number of Samples (item 20).
22. Factor:	a. For 1/100-acre sample size, use the factor "0.05." b. For 1/1000-acre sample size, use the factor "0.50."
23. Appraisal Per Acre:	Tons per acre for the field or subfield, to the nearest tenth. Average per Sample (item 21) x Factor (item 22).

Form Standards – Appraisal Worksheet (Continued)

Item Number/Element	Standard
The following required entries are not illustrated on the Appraisal Worksheet example below.	
24. Insured's Signature and Date:	Insured's (or insured's authorized representative's) signature and date. Before obtaining the signature, review all entries on the Appraisal Worksheet with the insured (or authorized representative), particularly explaining codes, etc., which may not be readily understood.
25. Adjuster's Signature Code No. and Date:	Signature of adjuster, code number, and date signed after the insured (or insured's authorized representative) has signed. If the appraisal is performed prior to signature date, document the date of appraisal in the Remarks section of the Appraisal Worksheet (if available); otherwise, document the appraisal date in the "Narrative" of the PW.
26. Page:	Page Numbers (Example: Page 1 of 1, Page 1 of 2, Page 2 of 2, etc.)

Form Standards – Appraisal Worksheet (Continued)

PART I EXAMPLES:

1. **Company:** ANY COMPANY

2. **Claim No:** XXXXXXXX

Form Standards – Production Worksheet

Verify and/or make the following entries for each PW element/item number. A completed PW example is at the end of this exhibit. For general form standards and other general information, see paragraph 2D and paragraph 31.

Item Number/Element	Standard
1. Crop/Code #:	“Processing Sweet Corn” (0042)
2. Unit#:	Unit number from the Summary of Coverage after it is verified to be correct.
3. Location Description:	Land location that identifies the legal description, if available, and the location of the unit (e.g., section township, and range; FSA Farm Numbers; FSA Common Land Units (CLU) and tract numbers; GPS identifications; or Grid identifications) as applicable for the crop.
4. Date(s) of Damage:	<p>First three letters of the month(s) during which the determined insured damage occurred for the inspection and cause(s) of loss listed in item 5 below. If no entry in item 5 below, make no entry. For progressive damage, enter in chronological order the month that identifies when the majority of the insured damage occurred. Include the specific date where applicable as in the case of hail damage (e.g., Aug 11). Enter additional dates as needed. If more space is needed, document the additional dates of damage in the “Narrative” (or on a Special Report). Refer to the illustration in item 6 below.</p> <p>If there is no insurable cause of loss and no indemnity due claim will be completed, make no entry.</p>
5. Cause(s) of Damage:	<p>Name of the determined insured cause(s) of damage for this crop as listed in the LAM for the date of damage listed in item 4 above for this inspection. If an insured cause(s) of damage is coded as “Other,” explain in the “Narrative.” Enter additional causes of damage in the extra spaces, as needed. If more space is needed, document the additional determined insured causes of damage in the “Narrative” (or on a Special Report). Refer to the illustration in item 6 below.</p> <p>If it is evident that no indemnity is due, enter “No Indemnity Due” across the columns in item 5 (refer to the LAM for more information on no indemnity due claims).</p>

Form Standards – Production Worksheet (Continued)

Item Number/Element	Standard												
6. Insured Cause %:	<p>PRELIMINARY: Make no entry.</p> <p>FINAL: Whole percentage of damage for the insured cause of damage listed in item 5 above for this inspection. Enter additional “Insured Cause %” in the extra spaces, as needed. If additional space is needed, enter the additional determined “Insured Cause %” in the “Narrative” (or on a Special Report). The total of all “Insured Cause %” including those entered in the “Narrative” must equal 100%.</p> <p>If there is no insurable cause of loss, and a no indemnity due claim will be completed, make no entry.</p> <p>Example entries for items 4-6 and the “Narrative” reflecting entries for multiple dates of damage, the corresponding insured causes of damage and insured cause percents:</p> <table border="1" data-bbox="618 890 1455 1003"> <tr> <td>4. Date(s) of Damage</td> <td>MAY</td> <td>JUN 11</td> <td>JUL</td> </tr> <tr> <td>5. Cause(s) of Damage</td> <td>Drought</td> <td>Wildlife</td> <td>Wind</td> </tr> <tr> <td>6. Insured Cause %</td> <td>10</td> <td>15</td> <td>55</td> </tr> </table> <p>Narrative: Additional date of damage – JUL; Cause of Damage – Drought; Insured cause percent - 20%.</p>	4. Date(s) of Damage	MAY	JUN 11	JUL	5. Cause(s) of Damage	Drought	Wildlife	Wind	6. Insured Cause %	10	15	55
4. Date(s) of Damage	MAY	JUN 11	JUL										
5. Cause(s) of Damage	Drought	Wildlife	Wind										
6. Insured Cause %	10	15	55										
7. Company/Agency:	Name of company and agency servicing the contract.												
8. Name of Insured:	Name of the insured that identifies exactly the person (legal entity) to whom the policy is issued.												
9. Claim#:	Claim number as assigned by the AIP.												
10. Policy#:	Insured’s assigned policy number.												
11. Crop Year:	Four-digit crop year, as defined in the policy, for which the claim is filed.												
12. Additional Units:	<p>PRELIMINARY: Make no entry.</p> <p>FINAL: Unit number(s) for all non-loss units for the crop at the time of final inspection. A non-loss unit is any unit for which a PW has not been completed. Additional non-loss units may be entered on a single PW.</p>												
13. Est. Prod. Per Acre:	<p>PRELIMINARY: Make no entry.</p> <p>FINAL: Estimated yield per acre, in tons, to tenths, of all non-loss units for the crop at the time of final inspection.</p>												

Form Standards – Production Worksheet (Continued)

Item Number/Element	Standard
14. Date(s) Notice of Loss:	<p>PRELIMINARY:</p> <ul style="list-style-type: none"> a. Date the first or second notice of damage or loss was given for the unit in item 2, in the 1st or 2nd space, as applicable. Enter the complete date (MM/DD/YYYY) for each notice. b. A notice of damage or loss for a third preliminary inspection (if needed) requires an additional set of PWs. Enter the date of notice for a third preliminary inspection in the 1st space of item 14 on the second set of PWs. c. Reserve the “Final” space on the first page of the first set of PWs for the date of notice for the final inspection. d. If the inspection is initiated by the AIP, enter “Company Insp.” Instead of the date. e. If the notice does not require an inspection, document as directed in the “Narrative” instructions. <p>FINAL: Transfer the last date (in the 1st or 2nd space from the first or second set of PWs) to the final space on the first set of PWs if a final inspection should be made as a result of the notice. Always enter the complete date of notice (MM/DD/YYYY) for the “Final” inspection in the final space on the first set of PWs. For a delayed notice of loss or delayed claim, refer to the LAM.</p>
15. Companion Policy(s):	<ul style="list-style-type: none"> a. If no other person has a share in the unit (insured has 100 percent share), make no entry. b. In all cases where the insured has less than 100 percent of a loss-affected unit, ask the insured if the other person sharing in the unit has a multiple-peril crop insurance contract (i.e., not crop-hail, fire, etc.). If the other person does not, enter “None.” <ul style="list-style-type: none"> (1) If the other person has a multiple-peril crop insurance contract and it can be determined that the same AIP services it, enter the contract number. Handle these companion policies according to AIP instructions. (2) If the other person has a multiple-peril crop insurance contract and a different AIP or agent services it, enter the name of the AIP and/or agent (and contract number) if known. (3) If unable to verify the existence of a companion contact the AIP for further instructions. c. Refer to the LAM for further information regarding companion contracts.

Form Standards – Production Worksheet (Continued)

SECTION I – Determined Acreage Appraised, Production and Adjustments

Make separate line entries for varying:

- (1) Rate classes, types, classes, sub-classes, intended uses, irrigated practices, cropping practices, or organic practices, as applicable;
- (2) APH yields;
- (3) Appraisals;
- (4) Stages or intended use(s) of acreage;
- (5) Shares (e.g., 50 percent and 75 percent shares on the same unit); or
- (6) Appraisals for damage due to hail or fire if Hail and Fire Exclusion is in effect.

Item Number/Element	Standard
16. Field ID:	The field or subfield identification symbol from a sketch map or an aerial photo. Refer to the “Narrative” instructions.
17. Multi-Crop Code:	PRELIMINARY AND FINAL: The applicable two-digit code for first crop and second crop. Refer to the LAM for instructions regarding entry of first crop and second crop codes.
18. Reported Acres:	In the event of over-reported acres, handle in accordance with the individual AIP’s instructions. In the event of under-reported acres, enter the reported acres to tenths for the field or sub field. If there are no under-reported acres make no entry.
19. Determined Acres:	<p>Refer to the LAM for definition of acceptable determined acres used herein. Enter the determined acres to tenths for the field or subfield for which consent is given for other use and or:</p> <ol style="list-style-type: none"> a. Put to other use without consent; b. Abandoned; c. Damaged by uninsured causes; d. For which the insured failed to provide acceptable records of production. <p>Refer to the LAM for procedures regarding when estimated acres are allowed and documentation requirements.</p> <p>PRELIMINARY AND FINAL: Determined acres to tenths. Acreage breakdowns within a unit or field may be estimated (refer to the LAM) if a determination is impractical.</p> <p>Account for all planted acreage in the unit.</p>
20. Interest or Share:	Insured’s interest in the crop to three decimal places as determined at the time of inspection. If shares vary on the same unit, use separate line entries.
21. Risk:	<p>Three-digit code for the correct “Rate” specified on the actuarial document maps. If a “Rate” or “High Risk Area” is not specified on the actuarial document maps, make no entry. Verify with the Summary of Coverage and if the “Rate” is found to be incorrect, revise according to AIP’s instructions. Refer to the LAM.</p> <p>Unrated land is uninsurable without a written agreement.</p>

Form Standards – Production Worksheet (Continued)

Item Number/Element	Standard
22. Type:	Three-digit code number entered exactly as specified on the actuarial documents for the type grown by the insured. If “No Type Specified” is shown in the actuarial documents, enter the appropriate three-digit code number from the actuarial documents (e.g., 997). If a type is not specified on the actuarial documents, make no entry.
23. Class:	Three-digit code number, entered exactly as specified on the actuarial documents for the class grown by the insured. If “No Class Specified” is shown in the actuarial documents, enter the appropriate three digit code number from the actuarial documents (e.g., 997). If a class is not specified on the actuarial documents, make no entry.
24. Sub-Class:	Three- digit code number, entered exactly as specified on the actuarial documents for the sub class grown by the insured. If “No Sub-Class Specified,” is shown in the actuarial documents enter the appropriate three-digit code number from the actuarial documents (e.g., 997). If a sub-class is not specified on the actuarial documents, make no entry.
25. Intended Use:	Three-digit code number, entered exactly as specified on the actuarial documents for the intended use grown by the insured. If “No Intended Use Specified” is shown in the actuarial documents, enter the appropriate three-digit code number from the actuarial documents (e.g., 997). If an intended use is not specified on the actuarial documents make no entry.
26. Irr. Practice:	Three-digit code number, entered exactly as specified on the actuarial documents for the irrigated practice carried out by the insured. If “No Irrigated Practice Specified” is shown in the actuarial documents, enter the appropriate three-digit code number from the actuarial documents (e.g., 997). If an irrigated practice is not specified on the actuarial documents, make no entry.
27. Cropping Practice:	Three-digit code number, entered exactly as specified on the actuarial documents for the cropping practice (or practice) carried out by the insured. If “No Cropping Practice Specified” or “No Practice Specified” is shown in the actuarial documents, enter the appropriate three-digit code number from the actuarial documents (e.g., 997). If a cropping practice (or practice) is not specified on the actuarial documents, make no entry.
28. Organic Practice:	Three-digit code number, entered exactly as specified on the actuarial documents for the organic practice carried out by the insured. If “No Organic Practice Specified” is shown in the actuarial documents, enter the appropriate three-digit code number from the actuarial documents (e.g., 997). If an organic practice is not specified on the actuarial documents, make no entry.

Form Standards Production Worksheet (Continued)

Item Number/Element	Standard																		
29. Stage:	<p>PRELIMINARY: Make no entry.</p> <p>FINAL: Stage abbreviation as shown below.</p> <table border="0"> <thead> <tr> <th data-bbox="526 384 634 415"><u>STAGE</u></th> <th data-bbox="997 384 1230 415"><u>EXPLANATION</u></th> </tr> </thead> <tbody> <tr> <td data-bbox="526 422 964 453">“P”</td> <td data-bbox="997 422 1435 667">Acreage abandoned without consent, put to other use without consent, damaged solely by uninsured causes, or for which the insured failed to provide records of production, which are acceptable to the AIP.</td> </tr> <tr> <td data-bbox="526 674 964 705">“H”</td> <td data-bbox="997 674 1133 705">Harvested.</td> </tr> <tr> <td data-bbox="526 711 964 743">“UH”</td> <td data-bbox="997 711 1398 779">Unharvested or put to other use with consent.</td> </tr> <tr> <td data-bbox="526 785 964 816">“UB”</td> <td data-bbox="997 785 1409 852">Acreage bypassed, solely due to insured causes.</td> </tr> <tr> <td data-bbox="526 858 964 890">“PB”</td> <td data-bbox="997 858 1409 926">Acreage bypassed, solely due to uninsured causes</td> </tr> <tr> <td data-bbox="526 932 964 963">“TZ”</td> <td data-bbox="997 932 1422 999">UUF/Third Party Damage – Zero production on same acreage.</td> </tr> <tr> <td data-bbox="526 1005 964 1037">“TA”</td> <td data-bbox="997 1005 1390 1115">UUF/Third Party Damage – Appraised production on same acreage.</td> </tr> <tr> <td data-bbox="526 1121 964 1152">“TH”</td> <td data-bbox="997 1121 1386 1230">UUF/Third Party Damage – Harvested production on same acreage.</td> </tr> </tbody> </table> <p>PREVENTED PLANTING: Refer to the PPSH for proper codes for any eligible prevented planting acreage.</p> <p>GLEANED ACREAGE: Refer to the LAM for information on gleaning</p>	<u>STAGE</u>	<u>EXPLANATION</u>	“P”	Acreage abandoned without consent, put to other use without consent, damaged solely by uninsured causes, or for which the insured failed to provide records of production, which are acceptable to the AIP.	“H”	Harvested.	“UH”	Unharvested or put to other use with consent.	“UB”	Acreage bypassed, solely due to insured causes.	“PB”	Acreage bypassed, solely due to uninsured causes	“TZ”	UUF/Third Party Damage – Zero production on same acreage.	“TA”	UUF/Third Party Damage – Appraised production on same acreage.	“TH”	UUF/Third Party Damage – Harvested production on same acreage.
<u>STAGE</u>	<u>EXPLANATION</u>																		
“P”	Acreage abandoned without consent, put to other use without consent, damaged solely by uninsured causes, or for which the insured failed to provide records of production, which are acceptable to the AIP.																		
“H”	Harvested.																		
“UH”	Unharvested or put to other use with consent.																		
“UB”	Acreage bypassed, solely due to insured causes.																		
“PB”	Acreage bypassed, solely due to uninsured causes																		
“TZ”	UUF/Third Party Damage – Zero production on same acreage.																		
“TA”	UUF/Third Party Damage – Appraised production on same acreage.																		
“TH”	UUF/Third Party Damage – Harvested production on same acreage.

Item Number/Element	Standard																
30. Use of Acreage:	<p>Use the following “Intended Use” abbreviations.</p> <table border="0" style="margin-left: auto; margin-right: auto;"> <tr> <td style="text-align: center;"><u>USE</u></td> <td style="text-align: center;"><u>EXPLANATION</u></td> </tr> <tr> <td>“To Cucumbers,” etc.</td> <td>Other use made of the acreage</td> </tr> <tr> <td>“WOC”</td> <td>Other use without consent</td> </tr> <tr> <td>“SU”</td> <td>Solely uninsured</td> </tr> <tr> <td>“ABA”</td> <td>Abandoned without consent</td> </tr> <tr> <td>“H”</td> <td>Harvested</td> </tr> <tr> <td>“UH”</td> <td>Unharvested</td> </tr> <tr> <td>“Bypassed”</td> <td>Bypassed by the processor</td> </tr> </table> <p>Verify any preliminary “Intended Use” entry. If the final use of the acreage was not as indicated, strike out the original line and initial it. Enter all data on a new line showing the correct “Final Use.”</p> <p>PREVENTED PLANTING: Refer to the PPSH for proper codes for any eligible prevented planting acreage.</p> <p>GLEANED ACREAGE: Refer to the LAM for information on gleaning.</p>	<u>USE</u>	<u>EXPLANATION</u>	“To Cucumbers,” etc.	Other use made of the acreage	“WOC”	Other use without consent	“SU”	Solely uninsured	“ABA”	Abandoned without consent	“H”	Harvested	“UH”	Unharvested	“Bypassed”	Bypassed by the processor
<u>USE</u>	<u>EXPLANATION</u>																
“To Cucumbers,” etc.	Other use made of the acreage																
“WOC”	Other use without consent																
“SU”	Solely uninsured																
“ABA”	Abandoned without consent																
“H”	Harvested																
“UH”	Unharvested																
“Bypassed”	Bypassed by the processor																
31. Appraised Potential:	<p>Enter the tons per acre, to tenths, from the appraisal worksheet for the field or subfield. Refer to Part 3, “Processing Sweet Corn Appraisals” for additional instructions.</p> <p>If there is no potential on UH acreage, enter “0.0”. Refer to the LAM for procedures for documenting zero yield appraisals.</p> <ol style="list-style-type: none"> a. For unharvested acreage that is bypassed by the processor due to insured causes of loss enter “0.0” on the PW. Consistent with the PW, no production to count will be used for APH purposes. b. For unharvested acreage, or acreage that is bypassed when no insured cause of loss prevented the processor from harvesting, the potential production must be appraised and counted as production against the guarantee and for APH purposes. 																
32a. -33.	Make no entry.																
34. Production Pre QA:	PRELIMINARY, REPLANT, AND FINAL: Result of multiplying column 31 times column 19 and round the result to tenths. If no entry in column 31, make no entry.																
35. Quality Factor:	Make no entry.																
36. Production Post QA:	Transfer entry from column 34.																

Form Standards – Production Worksheet (Continued)

Item Number/Element	Standard
37. Uninsured Causes:	<p>PRELIMINARY AND FINAL: Result of per acre appraisal for uninsured causes (taken from appraisal worksheet or other documentation) multiplied by column 19, rounded in tons, to tenths. Refer to the LAM for information on how to determine uninsured cause appraisals. If no uninsured causes, make no entry.</p> <p>a. Hail and Fire exclusion not in effect.</p> <p>(1) Enter the result of multiplying column 19 entry by not less than the insured’s production guarantee per acre in tons, to tenths, for the line, (calculated by multiplying the elected coverage level percentage times the approved APH yield per acre shown on the APH form) for any “P” stage acreage.</p> <p>(2) On preliminary inspections, advise the insured to keep the harvested production from any acreage damaged solely by uninsured causes separate from other production.</p> <p>(3) For acreage that is damaged partly by uninsured causes, enter the result of multiplying the appraised uninsured loss of production per acre in tons, to tenths, by column 19 entry for any such acreage.</p> <p>b. When there is late-planted acreage, the applicable per-acre production guarantee for such acreage is the production guarantee that has been reduced for late-planted acreage.</p> <p>c. Refer to the LAM when a hail and fire exclusion is in effect and damage is from hail or fire.</p> <p>d. Enter the result of adding uninsured cause appraisals to hail and fire exclusion appraisals.</p> <p>e. For fire losses, if the insured also has other fire insurance (double coverage), refer to the LAM.</p>
38. Total to Count:	PRELIMINARY AND FINAL: Result of adding item 36 and item 37 to tenths.
39. Total:	<p>PRELIMINARY: Make no entry.</p> <p>FINAL: Total determined acres (column 19), to tenths.</p>
40. Quality:	Check “None.”

Form Standards – Production Worksheet (Continued)

Item Number/Element	Standard
41. Mycotoxins exceed FDA, State, or other health organization maximum limits?:	Make no entry.
42. Totals:	Total of entries in columns 34, 36, 37 and 38. If a column has no entries, make no entry.

NARRATIVE INSTRUCTIONS

If more space is needed document on a Special Report, and enter “See Special Report.” Attach the Special Report to the PW.

a.	If no acreage is released on the unit, enter “No acreage released,” adjuster’s initials, and date.
b.	If notice of damage was given and no inspection is required, enter “No Inspection,” the unit number(s), date, and adjuster’s initials (do not enter the unit numbers for which notice has not been given). The insured’s signature is not required.
c.	Explain any uninsured causes, unusual, or controversial cases.
d.	If there is an appraisal in Section I column 37 for uninsured causes due to hail/fire exclusion, show the original hail/fire liability per acre and the hail/ fire indemnity per acre.
e.	Document the actual appraisal date if an appraisal was performed prior to the adjuster’s signature date on the appraisal worksheet, and the date of the appraisal is not recorded on the appraisal worksheet.
f.	State that there is “No other fire insurance” when fire damages or destroys the insured crop and it is determined that the insured has no other fire insurance. Refer to the LAM.
g.	Explain any errors found on the Summary of Coverage.
h.	Explain any commingled production. Refer to the LAM.
i.	Explain any entry for “Production Not to Count” in Section II column 62 and/or any production not included in Section II, column 56 or column 49-52 entries (e.g., harvested production from uninsured acreage that can be identified separately from the insured acreage in the unit).
j.	Explain a “NO” checked in item 44, “Damage Similar to Other Farms in the Area?”
k.	<p>Attach a sketch map or aerial photo to identify the total unit:</p> <ul style="list-style-type: none"> (1) If consent is or has been given to put part of the unit to another use; (2) If uninsured causes are present; or (3) For unusual or controversial cases. <p>Indicate on the sketch map or aerial photo, disposition of acreage destroyed or put to other use with or without consent.</p>
l.	Explain any difference between date of inspection and signature dates. For absentee insured, enter the date of the inspection and the date of mailing the PW for signature.

Form Standards – Production Standards (Continued)

m.	When any other adjuster or supervisor accompanied the adjuster on the inspection, enter the code number of the other adjuster or supervisor date of inspection.
n.	Explain the reason for a “No Indemnity Due” claim. “No Indemnity Due” claims are to be distributed in accordance with the AIP’s instructions.
o.	Explain any delayed notices or delayed claims as instructed in the LAM.
p.	Document any authorized estimated acres, as instructed in the LAM, shown in Section I, column 19.
q.	Document the method and calculation used to determine acres for the unit. Refer to the LAM.
r.	Specify the type of insects or disease when the insured cause of damage or loss is listed as insects or disease. Explain why control measures did not work or if unavailable.
s.	Document the name and address of the charitable organization when gleaned acreage is applicable. Refer to the LAM for more information on gleaning.
t.	Document any other pertinent information, including any data to support any factors used to calculate the production. If on an attachment, enter “See attachment.”

Section II Determined Harvested Production

- (1) Account for all harvested production (for all entities sharing in the crop) except production appraised before harvest and shown in Section I because the quantity cannot be determined later (e.g., released for other uses, etc.).
- (2) For production commercially stored, sold, etc., enter the name and address of the processor as applicable in columns 49 through 52.
- (3) If additional lines are necessary, the data may be entered on a continuation sheet. Use separate lines for:
 - a. Separate processor facilities.
 - b. Varying shares; e.g., 50 percent and 75 percent shares on same unit.
 - c. Varying types (if applicable), practices, guarantees, etc.
- (4) There will generally be no harvested production entries in columns 47 through 66 for preliminary inspections.
- (5) If there is harvested production from more than one insured practice (or type) and a separate approved APH yield has been established for each, the harvested production also must be entered on separate lines in columns 47 through 66 by type or practice. If production has been commingled, refer to the LAM.

Form Standards – Production Worksheet (Continued)

Item Number/Element	Standard
43. Date Harvest Completed:	<p>(Used to determine if there is a delayed notice or a delayed claim. Refer to the LAM.)</p> <p>PRELIMINARY: Make no entry.</p> <p>FINAL:</p> <ul style="list-style-type: none"> a. The earlier of the date the entire acreage on the unit was (1) harvested, (2) totally destroyed, (3) put to other use, (4) a combination of harvested, destroyed, or put to other use, or (5) calendar date for the end of the insurance period. b. If at the time of final inspection (if prior to the end of the insurance period), there is any unharvested insured acreage remaining on the unit that the insured does not intend to harvest, enter “Incomplete.” c. If at the time of final inspection (if prior to the end of the insurance period), none of the insured acreage on the unit has been harvested, and the insured does not intend to harvest such acreage, enter “No Harvest.” d. If the case involves a Certification Form, enter the date from the Certification Form when the entire unit is put to another use, etc. Refer to the LAM.
44. Damage Similar to Other Farms in the Area:	<p>PRELIMINARY: Make no entry.</p> <p>FINAL: Check “Yes” or “No.” Check “Yes” if the amount and cause of damage due to insurable causes is similar to the experience of other farms in the area. If “No” is checked, explain in the “Narrative.”</p>
45. Assignment of Indemnity:	Check “Yes” only if an assignment of an indemnity is in effect for the crop year; otherwise, check “No.” Refer to the LAM.
46. Transfer of Right to Indemnity:	Check “Yes” only if a transfer of right to indemnity is in effect for the unit for the crop year; otherwise, check “No.” Refer to the LAM.
47a. Share:	Record only varying shares on same unit to three decimal places.

Form Standards – Production Worksheet (Continued)

Item Number/Element	Standard
47b. Field ID:	<p>a. If only one practice and/or type of harvested production is listed in Section I, make no entry.</p> <p>b. If more than one practice or type of harvested production is listed in Section I, and a separate approved APH yield exists, indicate for each practice/type the corresponding Field ID (from Section I, column 16).</p>
48. Multi-Crop Code:	The applicable two-digit code for first crop and second crop. Refer to the LAM for instructions regarding entry of first crop and second crop codes.
49.- Length or Diameter, 55 Width, Depth, Deductions, Net Cubic Feet, Conversion Factor and Gross Prod.:	<p>PRELIMINARY: Make no entry.</p> <p>FINAL: Enter the name and address of the buyer, packinghouse, or processor for processing sweet corn sold, as applicable.</p>
56. Bu., Ton, Lbs., Cwt.:	<p>Circle “Ton” in column heading. Production in tons, to tenths.</p> <p>a. Enter the usable tons expressed as unhusked ear weight of processing sweet corn shown on the processor settlement sheet, if available. Refer to column 57 below when harvested production must be converted to an unhusked ear weight.</p> <p>b. If a processor settlement sheet showing the usable tons of sweet corn is not available, enter the result obtained by dividing the total dollar amount paid, payable, or which should have been paid under the terms of the processor contract for the quantity of sweet corn to be delivered to the processor by the base contract price per ton. Multiple contracts with the same processor that specify amounts of production will be considered as a single processor contract, unless the contracts are for different types. Your base contract price will be the weighted average of all applicable base contract prices. Show the calculations in the “Narrative” of the PW.</p> <p>c. Include all harvested processing sweet corn production from any other insurable units that have been used to fulfill the processor contract for this unit.</p> <p>d. Any other measure of production will be converted to an unhusked ear weight equivalent.</p>

Form Standards – Production Worksheet (Continued)

Item Number/Element	Standard
57. Shell/Sugar Factor:	<p>Three-place decimal factor, obtained from the processor, when harvested production must be converted to an unhusked ear weight.</p> <p>a. When harvested production is delivered to the processor and weighed as husked ears or the kernels have been cut from the cob and just the kernels are weighed, the adjuster must obtain the applicable factor from the processor to convert the kernels or husked ear weights to an unhusked ear weight.</p> <p>b. Formula: Applicable factor multiplied by the weight of husked ears or weight of kernels equals unhusked ear weight. Enter the result in tons to tenths in column 56.</p> <p>c. Document the date the factor was obtained from the processor in the “Narrative” of the PW.</p>
58.-60.	Make no entry.
61. Adjusted Production:	Transfer entry from column 56.
62. Production Not to Count:	<p>Enter the net “Production Not to Count,” in tons to tenths, when acceptable records identifying such production are available, from harvested acreage, which has been assessed an appraisal of not less than the guarantee per acre, or from other sources (e.g. Other units or uninsured acreage).</p> <p>This entry must never exceed production shown on the same line. Explain any “Production Not to Count” in the “Narrative.”</p>
63. Production Pre-QA:	Result of subtracting column 62 from column 61 in tons to tenths.
64a.-65.	Make no entry.
66. Production to Count:	Transfer entry from column 63.
67. Total:	Total of column 63 to tenths.
68. Section II Total:	<p>PRELIMINARY: Make no entry.</p> <p>FINAL: Total of column 66, to tenths.</p>
69. Section I Total:	<p>PRELIMINARY: Make no entry.</p> <p>FINAL: Enter figure from Section I, column 38 total.</p>
70. Unit Total:	<p>PRELIMINARY: Make no entry.</p> <p>FINAL: Total of item 68 and item 69, to tenths.</p>
71. Allocated Prod:	Refer to the LAM for instructions for determining allocated production. Enter the total production in tons to tenths, allocated to this unit that is included in Section I or II of the PW. Document how allocated production was determined and record supporting calculations in the “Narrative” or on a Special Report.

Form Standards – Production Worksheet (Continued)

Item Number/Element	Standard
72. Total APH Prod:	Result, to tenths, of subtracting the total of column 37 (item 42 “Totals”) and item 71 (Allocated Prod.) from item 70 (Unit Total). If no entries in item 37 and item 71, transfer the entry in item 70. Make no entry when separate APH yields are maintained by type, practice, etc., within the unit.
The following required entries are not illustrated on the PW example below.	
73. Insured’s Signature and Date:	Insured’s (or insured’s authorized representative’s) signature and date. Before obtaining the signature, review all entries on the PW with the insured (or the insured’s authorized representative), particularly explaining codes, etc., that may not be readily understood. Final indemnity inspections should be signed on bottom line.
74. Adjuster’s Signature, Code # and Date:	Signature of adjuster, code number, and date signed after the insured (or insured’s authorized representative) has signed. For an absentee insured, enter adjuster’s code number only. The signature and date will be entered after the absentee has signed and returned the PW. Final indemnity inspections should be signed on the bottom line.
75. Page:	PRELIMINARY: Page numbers – “1,” “2,” etc., at the time of inspection. FINAL: Page numbers – (Example: Page 1 of 1, Page 1 of 2, Page 2 of 2, etc.).

																	71. Allocated Prod.						
																	72. Total APH Prod.		111.4				

This form example does not illustrate all required entry items (e.g., signatures, dates, etc.).

Minimum Representative Sample Requirements

ACRES IN FIELD OR SUBFIELD	MINIMUM NUMBER OF SAMPLES
0.1 - 10.0	3
One additional sample is required for each additional 40.0 acres (or fraction thereof) in the field or subfield.	

Row Width Factors

ROW WIDTH, INCHES	SAMPLE ROW LENGTH, FEET, FOR:		ROW WIDTH, INCHES	SAMPLE ROW LENGTH, FEET, FOR:	
	1/100 ACRE	1/1000 ACRE		1/100 ACRE	1/1000 ACRE
14	374	37.4	30	174	17.4
16	326	32.6	32	163	16.3
18	290	29.0	34	154	15.4
20	262	26.2	36	145	14.5
22	238	23.8	38	138	13.8
24	218	21.8	40	131	13.1
26	202	20.2	42	125	12.5
28	187	18.7			

For row widths not listed in **exhibit 6**, use the following formula:

$$\frac{43,560 \text{ sq. ft./acre} \div \left[\frac{\text{row width in inches}}{12''} \right]}{100 \text{ ft.} \quad \text{or} \quad 1,000 \text{ ft.}} \\ \text{(for 1/100 acre) (for 1/1,000 acre)}$$

EXAMPLE:

$$\frac{43,560 \text{ sq. ft./acre} \div \left[\frac{25''}{12''} \right]}{100 \text{ ft.}} = \frac{43,560 \text{ sq. ft.} \div 2.08}{100 \text{ ft.}} = \frac{20,942}{100 \text{ ft.}} = 209.42 \text{ ft. or } 209 \text{ ft. row length}$$
