VALDOSTA, Ga., Feb. 1, 2023 — The USDA's Risk Management Agency (RMA) reminds Alabama corn, cotton, cucumbers, grain sorghum, hemp, peanut, sesame, and soybean growers that the final date to apply for crop insurance coverage for the 2023 crop year is February 28. Growers who are interested in the Whole-Farm Revenue Protection (WFRP) policy and are calendar year or early fiscal year filers, have until February 28 to apply for crop insurance. Current policyholders who wish to make changes to their existing coverage also have until the February 28 sales closing date to do so.

Federal crop insurance is critical to the farm safety net. It helps producers and owners manage revenue risks and strengthens the rural economy. Coverage is available for corn, cotton, grain sorghum, hemp, peanuts, soybeans, and WFRP in select Alabama counties. Coverage is also available for cucumbers in Houston County. Coverage is available for sesame in Autauga, Geneva, Macon, and Montgomery counties. Please contact your insurance agent to see if your county is covered.

Growers are encouraged to visit their crop insurance agent soon to learn specific details for the 2023 crop year.

Crop insurance is sold and delivered solely through private crop insurance agents. A list of crop insurance agents is available online using the RMA [Agent Locator](#).

Producers can use the RMA [Cost Estimator](#) to get a premium amount estimate of their insurance needs online. Learn more about crop insurance and the modern farm safety net at www.rma.usda.gov.

USDA touches the lives of all Americans each day in so many positive ways. In the Biden-Harris Administration, USDA is transforming America's food system with a greater focus on more resilient local and regional food production, fairer markets for all producers, ensuring access to healthy and nutritious food in all communities, building new markets and streams of income for farmers and producers using climate smart food and forestry practices, making historic investments in infrastructure and clean energy capabilities in rural America, and committing to equity across the Department by removing systemic barriers and building a workforce more representative of America.
