Green Pea Growers Need to Make Insurance Decisions Soon

RALEIGH, N.C., Jan 15, 2020 — The USDA's Risk Management Agency (RMA) reminds Delaware and Maryland green pea growers that the final date to apply for crop insurance coverage for the 2020 crop year is February 15. Current policyholders who wish to make changes to their existing policies also have until February 15 to do so.

Federal crop insurance is critical to the farm safety net. It helps producers and owners manage revenue risks and strengthens the rural economy. Coverage for green peas is available in select counties. Additional information can be found on the [Actuarial Information Browser](#) page on the RMA website.

Growers are encouraged to visit their crop insurance agent soon to learn specific details for the 2020 crop year, including insurance for green peas. Additional crops or counties may be eligible for coverage under a written agreement. Crop insurance coverage decisions must be made on or before the sales closing date.

Crop insurance is sold and delivered solely through private crop insurance agents. A list of crop insurance agents is available at all USDA Service Centers and online at the RMA [Agent Locator](#). Producers can use the RMA [Cost Estimator](#) to get a premium amount estimate of their insurance needs online.

Learn more about crop insurance and the modern farm safety net at www.rma.usda.gov.
