Martin Barbre, Administrator /s/ Martin Barbre

Subject

Wildfire Hurricane Indemnity Program and Wildfire Hurricane Indemnity Program+ Linkage Requirements

### **Background**

The Risk Management Agency (RMA) has received several questions about the Wildfire Hurricane Indemnity Program (WHIP) and Wildfire Hurricane Indemnity Program+ (WHIP+) administered by USDA's Farm Service Agency (FSA). Specifically, RMA has been asked if the Occurrence Loss Option (OLO) available under the Nursery Value Select (NVS) pilot program can be used to meet linkage requirements under WHIP and WHIP+.

### **Action**

If a producer purchases the Occurrence Loss Option with the 50 percent buy up coverage level or higher, the producer will meet the WHIP and WHIP+ linkage requirement of 60/100 or equivalent coverage provided they adhere to all other

requirements of these programs. Producers should contact their local service center ([www.farmers.gov](http://www.farmers.gov)) for questions regarding WHIP and WHIP+ and their local crop insurance agent for questions regarding crop insurance coverage options ([www.rma.usda.gov/tools-reports/agent-locator](http://www.rma.usda.gov/tools-reports/agent-locator)).

**DISPOSAL DATE:**

Until modified or rescinded
