* Revenue protection coverage is not offered for rice counties with a February 1 sales closing date due to an insufficient number of full active trading days, as stipulated in the Commodity Exchange Price Provisions (CEPP) – Section 1 (www.rma.usda.gov/policy-procedure/crop-policies/commodity-exchange-price-provisions-section-general-information-14.pdf). Yield protection coverage is still available; revenue protection coverage plans of insurance have volatility set equal to zero and the harvest price set equal to the projected price. The projected price equals the average daily settlement price for the CBOT 2015 November rice contract during the month of January 2015.
