Apple, Grape, Peach and Pear Growers Need to Make Insurance Decisions Soon

RALEIGH, N.C., Nov. 1, 2017 — The USDA's Risk Management Agency (RMA) reminds Pennsylvania apple, grape, peach, and pear growers that the final date to apply for crop insurance coverage for the 2018 crop year is November 20. Current policyholders who wish to make changes to their existing policies also have until November 20 to do so.

Federal crop insurance is critical to the farm safety net. It helps producers and owners manage revenue risks and strengthens the rural economy. Coverage for apples, grapes, peaches, and pears is available in select counties. Additional information can be found on the [Actuarial Information Browser](#) page on the RMA website. Price elections for the 2018 crop year are \$13.30 per bushel for fresh apples, \$4.35 per bushel for processing apples, \$51.50 per bushel for Varietal Group A apples, \$15.60 for Varietal Group B apples, and \$11.40 for Varietal Group C apples. Grape prices for non-vinifera varieties vary from \$215 to \$870 per ton. Vinifera grapes varieties may be insurable by written agreement if certain criteria are met. Peach price elections are \$22.75 per bushel for fresh peaches and \$8.50 for processing peaches. Pears are \$891.00 per ton.

Growers are encouraged to visit their crop insurance agent soon to learn specific

details for the 2018 crop year, including insurance for apples, grapes, pears, and peaches, which may be eligible for coverage under a written agreement. Crop insurance coverage decisions must be made on or before the sales closing date.

Crop insurance is sold and delivered solely through private crop insurance agents. A list of crop insurance agents is available at all USDA Service Centers and online at the RMA [Agent Locator](#). Producers can use the RMA [Cost Estimator](#) to get a premium amount estimate of their insurance needs online.

For more information about crop insurance and the modern farm safety net, visit www.rma.usda.gov.
