Subject

Expanding Options for Specialty and Organic Growers (EOSOG) Final Rule Effective for the 2025 and Succeeding Crop Years

BACKGROUND:

The Risk Management Agency (RMA) issued Product Management Bulletin PM-24-039 on June 27, 2024, announcing changes to several policies under the Expanding Options for Specialty and Organic Growers (EOSOG) Final Rule. The Common Crop Insurance Provisions Basic Provisions, Area Risk Protection Insurance Basic Provisions, and 7 individual Crop Provisions were released at that time. The remaining regulatory Crop Provisions included in the EOSOG Final Rule and conforming changes in non-regulatory Crop Provisions are planned for public release by their respective contract change dates (CCD).

This bulletin announces the release of those Crop Provisions with October 31, 2024, and November 30, 2024, CCDs.

The following documents will be available by close of business today on the RMA website at www.rma.usda.gov:

- Coarse Grains Crop Provisions (25-0041)
- Fig Crop Provisions (25-060)
- Pecan Revenue Crop Provisions (25-0020)
- Processing Bean Crop Provisions (25-046)
- Prune Crop Provisions (25-0036)
- Sunflower Seed (25-0078)
- Walnut Crop Provisions (25-029)

Approved insurance providers must notify policyholders of these changes at least 30 days prior to the cancellation date, as required by the policy.

Interested producers should contact a crop insurance agent for further information. A list of agents can be found on the RMA website at www.rma.usda.gov/tools-reports/agent-locator.
