Crop and Livestock Income Protection - Effective for the 2026 and Succeeding Crop Years

BACKGROUND:

The Federal Crop Insurance Corporation Board of Directors approved implementation of the Crop and Livestock Income Protection (CLIP) crop insurance program, under section 508(h) of the Federal Crop Insurance Act, on November 21, 2024.

The CLIP program provides umbrella coverage for commodities insured under two or more Revenue Protection (RP) policies. CLIP can provide coverage at higher levels and may be more affordable than individual policies at that same coverage level. CLIP will be available beginning with the 2026 crop year for spring crops with RP plans of insurance in 13 states.
